Has Inverted Stomach

Smiling Alyce McHenry of Omaha, started something. Her "up-

side-down" stomach has brought to light numerous cases of the

same thing. Here for instance, is Florence Babcock, 11, of Belle-

vile, Ontario, whose heart and stomach are somewhere up in her

left chest. Florence weighs only 40 pounds and is being given

blood transfusions to strengthen her for an operation. She is

shown in Belleville hospital with her nurse.
