### ARE LESS Underwater Slide Cause Of Commotion at Fishermen's Floats; Some Damage Done

An underwater slide, due possibly, it is believed, to disturbance to the bottom in recent work being carried out thereabouts, at 6 o'clock Sunday morning moved out one dolphin, four piles and two sections of the fishermen's floats just east of the dry dock on the local waterfront, also dislocating a portion of a new breakwater which is being put in there by the department of public works. There was no damage to any of the boats which were moored there but considerable disturbance was caused as the water boiled up, according to spectators, for almost half an hour.
