WHAT WILL OIL COMPANIES DO WITH THIS INVENTION?

WINNIPEG, Jan. 22: (CP)—Invention of a carburetor enabling motor cars to travel more than two hundred miles on an Imperial gallon of gasoline is claimed by Charles Nelson Pogue, 38-year old Winnipeg inventor.

Blasts from silver trumpets rang out as Sir Gerald pronounced the words "God Save the King." The new ruler appeared for a moment at a window adjoining the crimson balcony on which Sir Gerald stood. Otherwise, he took no part in the traditional ceremonies. The official proclamation party then drove to Charing Cross, thence to Temple Bar, ancient boundary of the capital city, and wound up on the steps of the Royal Exchange, repeating the proclamation at each place.

Premier Stanley Baldwin proceeded to Buckingham Palace where he was received by the new King.

Following the ceremony the new King left with the Dukes of York and Gloucester for Sandringham House by train to rejoin the bereaved Queen. Weather conditions caused King Edward to cancel plans to fly there.
