GRADUALLY GETTING GOING

A few days ago we announced the commencement of mining operations at Eddye Pass mine, involving the employment of a number of men, possibly thirty. Yesterday we announced the reopening of the mill at Billmor with a crew of about twenty-five. Most of the mills in the interior are cutting lumber of getting out logs in readiness; for cutting, all of which means greater employment with; a consequent improvement of conditions. All this is in the way of returning to a more normal condition, made possible largely through the treaty with the United States. It is a welcome change.

RALPH LEPINE'S CHANGE

Ralph LePine, when he lived in Prince Rupert, was a Conservative in politics. Of late he has shifted to the opposite camp and is one of the leaders of the Townsend plan in the United States. Time works many changes in the viewpoint of citizens. In Canada we find former Conservatives voting for the C. C. F. or supporting Social Credit. These are days when nothing is static. Everywhere people and conditions are changing.

AMY JOHNSON MOLLISON AGAIN

Amy Johnson Mollison does not seem to have lost any of her pluck and skill in aviation as the result of her marriage to Captain Mollison. There is, however, danger of her wrecking her marital life by completely overshadowing her aviator husband by making spectacular flights and breaking records. No man likes his wife to beat him in his own game and Amy is a world beater as well as a husband beater. She has just beaten three former world records in aviation and as such is an outstanding flying woman of the world.
