

CANADIANS AND THEIR INDUSTRIES—AND THEIR BANK. TOBACCO GROWING.

TOBACCO FARM OWNER: "Henry, you and the other men are doing fine work and I hope you know I appreciate it."

TOBACCO FARM WORKER: "Thank you; I figure you know that we appreciate our steady jobs and good pay, too."

OWNER: "Oh, well, Henry, I don't deserve all the credit. I never could have started or carried on this business properly, without the assistance of my bank, the Bank of Montreal. Like hundreds of other tobacco growers, I have borrowed every year from the Bank to pay for plants, fertilizer and labour; and soon after I began the Bank loaned me money I needed for barns and other equipment. Of course, I've kept up my end by paying off the loans when I sold my crop. There's nothing like

good banking credit for making a sound business, regular profits—and giving employment."

WORKER: "So it's your bank, too! I think most of my friends in this district keep their savings at the same bank. Some of us have safety deposit boxes there, too."

In the development of the tobacco industry, as in other new and old Canadian industries, the Bank of Montreal has played an important part. From the time the plants and fertilizer are purchased in the spring and on through the growing season when money is needed for labour, equipment and buildings, the Bank's loaning facilities are at the disposal of its hundreds of tobacco-growing customers.

## LAKES ARE CONNECTED

Interesting Information Obtained In Regard to Nearby System Of Water Bodies.

A survey made recently on behalf of the Department of Fisheries by a party headed by Dr. Neal Carter has established that trout can travel from Prudhomme Lake into Diana Lake and, further, there is a water connection between Diana and Rainbow Lakes through which fish can get through at high water. The connection from Diana to Rainbow Lake is by means of a series of small lakes formed by beaver dams. There is, apparently, also a connection between Diana and Sockeye Lakes, which, however, was not explored.

The survey of the lakes was made in connection with the projected planting of Kamloops trout eggs.

Going into Diana Lake, the party used a new and much shorter trail which was slashed only last fall. This trail starts a quarter of a mile beyond Cloyah Bay and crosses a ridge of some 600 or 700 feet elevation from the summit of which Diana Lake can be clearly seen.

## Hill 60 Chapter Monthly Meeting

I. O. O. F. Branch Has Gathering At Home of Mrs. Winslow

The regular monthly meeting of Hill 60 Chapter, Imperial Order, Daughters of the Empire, was held last evening at the home of Mrs. R. M. Winslow. Arrangements were made to hold a tea on June 17. Plans were also completed for the Alexandra Rose Tag Day to be held on June 6. During the evening a very interesting report was read from Mrs. Corby, organizing secretary of Provincial Chapter, regarding the annual meeting held recently in Vancouver.

At the close of the meeting delicious refreshments were served by the hostess.

## District News TERRACE

The Terrace village council, at its regular monthly meeting last Wednesday, passed a Curfew By-law, which, when it has received approval of Victoria, will require the younger generation of Terracites to get off the streets after certain hours specified in the By-law. In winter they will have to go home early but in summer they will be allowed to be out at least until dark.

Mr. and Mrs. W. F. Lindsay who, until recently conducted a general store in Terrace, have left Terrace and for the present are travelling on a holiday. At first they plan to visit Chicago after which it is likely they will set up in business again but in some other part of British Columbia.

Mr. and Mrs. R. L. McIntosh have taken up residence for the summer at their home, "The Crossways" at Kitsumkalum.

### NOVEL DISMISSAL

MUNICH, Germany, May 19 (CP)—Hans Knappertsbusch, director of the Munich Musical Academy has been dismissed "as he could not maintain the new tempo of the Third Reich."

## WHIFFLETS From the Waterfront

Dr. Riddell Here to Join Fisheries Experimental Station Staff—Train Delayed to Take Halibut East From Here.

Dr. W. A. Riddell, late professor of chemistry on the staff of the University of Saskatchewan at Regina, who arrived in the city at the end of last week to join the staff of the Prince Rupert Fisheries Experimental Station as research chemist, will work on the experimental verification of a new method of determining proportion of fatty acids in fish oils. Dr. Riddell will continue work along this line which was instituted by his predecessor, Frank Chamley, now with the canned salmon inspection bureau. Dr. H. N. Brocklesby will collaborate in the work. Later, also in conjunction with Dr. Brocklesby, Dr. Riddell will study the cold clearing of pilchard oils and the scientific aspects of rancidity of fish products.

Having awaited the arrival of the steamer Evelyn Berg with three carloads of halibut from Ketchikan for trans-shipment east last night's train for the east did not leave until 10:15 last night, four and a quarter hours late.

The Imperial Oil Co.'s tanker Imperial was in port at the end of the week with a cargo of fuel for the company's local tanks.

Union steamer Catala, Capt. James Findlay, returned to port at 11:50 this morning from Stewart, Anyox and other northern points and sailed at 1:30 this afternoon for Vancouver and waypoints.

Rudolf Braun, well known Kiti-maat rancher, is in town at present on one of his periodical visits. He came north aboard his gasboat, bringing in some farm products for sale here. He will purchase supplies while here.

C. N. R. steamer Prince John, Capt. Neil McLean, coming north from Vancouver, via the Queen Charlotte Islands, left Queen Charlotte City at 11 o'clock this morning, is due in Massett Inlet this evening and should arrive here tomorrow evening or early Thursday morning.

## First Totem Poles Are Being Put Up On Fraser Street

The first of the Queen Charlotte Island totem poles to be erected in the new Centennial Park on Fraser Street went up yesterday and a second is to be erected today. In all, six poles will be placed there.

SPARROW TRAP PERFECTED LUBBOCK, Tex., May 19 (CP)—In an attempt to promote eradication of English sparrows a new type of trap has been perfected here.

BACUP, England, May 19 (CP)—Eighteen shillings unearthed here. 14 of the reign of George III, three of George IV, and one of Queen Victoria, have been declared the property of the crown.

## Peaches \$1 Each In Dear Old London

One Strawberry May Be Had For 17½¢. But Season Just Starting

LONDON, May 19 (CP)—Young women who crave strawberries are expensive to court, for the berries cost 17½¢ each in London. But even young men who can afford strawberries blanche at peaches.

Spring prices, as displayed by London's leading fruiterer in the West End, find the fuzzy-cheeked peach at the top of the list—at four shillings, or \$1, a peach. They come from Belgian hothouses, and the purveyor keeps only a dozen on hand at a time.

"A wealthy Earl buys them," said the manager. "Sometimes an American will come in and ask how much they are. Other people just like to look at them in the window."

"Once," he said wistfully, "we had an order for two dozen. We had to cable to Belgium and have them sent by plane."

Early strawberries are one guinea, or \$5.25 a basket of 30 berries. They count them. Exactly 30 berries, no more, no less. "Expensive?" said the manager. "Oh, dear no! They're cheap now—really cheap. In February they cost three guineas a basket."

A bunch of asparagus, some 22 stalks to the bunch, weighing a little less than two pounds, sells at \$1.35 a bunch, or about six cents a stalk.

Other prices include: Grapes, \$1.50 a pound; lemons, 65 cents a dozen; small bananas, 65 cents a dozen; tomatoes, 90 cents a pound; raspberries, 75 cents a pound; grapefruit, 18 cents apiece; peas, \$1.25 a dozen; avocados, 50 cents apiece; oranges, 65 cents a dozen; plums, \$1.25 a dozen.

The tomatoes, at 90 cents a pound, are the small English type about the size of a discouraged crabapple, but the manager said they are just about the biggest seller.

## HOPPERS MAKE APPEARANCE

EXCEL, Alta., May 19: (CP)—First indications of possible hopper infestation in Alberta are reported from this town. Warm weather has resulted in hatching of the first grasshoppers of 1936. One farmer reported finding the pests half an inch long on his land.

**Letting of Order For Uniforms For Firemen Explained**

In explanation of the recent placing of an order by the city for seven firemen's uniforms, it was stated this morning at the City Hall that the order had been given to G. A. Bryant at \$29. per suit. The order was placed on the basis of what was considered the best value on material best suited for the requirements. Actually, the lowest tender was \$21.50 per suit which was also submitted by Mr. Bryant. Other tenderers were P. Cravetto, J. G. Sutherland, Lambie & Stone, Sam Wood, Fraser & Payne and Stephen King.
