

**Ruffit Suedes**

The most essential part of a person's clothing for street wear or walking is a good pair of shoes that are properly fitted.

RUFFIT SUEDES are ideal for this purpose. In grey or brown with medium heels, with or without shawl tongues.

Look at the window  
And see the styles.  
Buy a pair.  
Walk miles with smiles.

**MORE HEMLOCK LOGS WANTED**

In another place in this paper today is an advertisement asking for hemlock logs. Already between three and four million feet of logs for export have been secured, but twice as many are needed to fill the orders received for this timber to be shipped through the port of Prince Rupert. It will be a pity if these cannot be purchased since the vessels have already been subsidized to carry them and the local longshoremen are anxious to load them. Also woodsmen are anxious for the job of cutting the timber but they have not the money to finance it.

**TROUT FOR LAKES**

It's rather a nice luxury to have trout brought from Kamloops to Prince Rupert to restock the chain of lakes of which Prudhomme is one. The difficulty is that unless the lakes are carefully protected the fish will soon be all taken. With the highway passing close to the lake shore it will be so easy for people to fish there.

The reason Khtada Lake fishing is so well preserved is because it is difficult of access and any fish caught have to be packed out four miles and then carried by launch forty or more miles to Prince Rupert. There are also a limited number of boats on the lake.

For lakes that are easy of access the fishing season should be restricted to a few weeks each year, if the fishing is to be perpetuated.

**CHOOSING A CANDIDATE**

The United States is having a difficult time choosing a Republican candidate to oppose President Roosevelt in the presidential campaign. Former President Hoover is not very popular and seems to be out of the running. The spectacular Senator Borah is putting up a fight for it but he has strong opposition in some states. Probably Governor Alfred M. Landon of Kansas has the best chance of securing the nomination but nothing is sure at a nominating convention. There is always possibility of a "dark horse" being introduced at the last moment as a compromise between closely contending candidates.

On the Democratic side there is practically no opposition to Roosevelt and the consensus of opinion seems to be that not only will the president win the nomination but that he will be elected for another term no matter who the Republicans may choose.

**Princess Norah On Final Voyage Of Season - Seattle Halibut Landings - Melville to Butedale**

With a large list of 95 passengers including many northerners bound for Northern British Columbia and Yukon for the season, C. P. R. steamer Princess Norah, Capt. William Palmer, arrived in port at 9 o'clock this morning from Vancouver and sailed a couple of hours later for Skagway and other northern points whence she will return here next Monday afternoon southbound. This is the final voyage of the season for the Princess Norah which will be replaced now by the larger Princess Louise. Half a dozen passengers disembarked from the vessel here while about fifteen boarded her here for the north.

The Western Princess was in last week from North Island with six thousand pounds of spring salmon from the North Island Troller's Co-operative Association, the fish being sold to Canadian Fishing Co. at 11c, 9c and 3c. The Pachena was in this week with a load of co-operative salmon from Banks Island which was disposed of on the consignment arrangement with Sigmund Einstoss.

There is some discussion as to the exercise of law here by which creditors can garnishee the entire share of a halibut fisherman on any trip as he ranks as a partner, and not as a wage earner. While it is admitted that fishermen should pay their debts like anyone else, the too rigid enforcement of the total garnishee provision can work a real hardship, it is pointed out.

A total of 171,000 pounds of halibut was sold by four western and four local boats at Seattle yesterday. Prices were lower than the day previous for western fish and 1/2c lower for local. The boats selling in Seattle yesterday were: Trinity, 40,000, Sebastian-Stewart, 75c and 6 1/2c, Sitka, 36,000, San Juan, 7 1/2c and 6c, Neptune, 27,000, Washington, 7 1/2c and 6 3/4c; Summit, 21,000, Whiz, 7 1/2c and 6 1/4c; Coolidge, 16,000, Booth, 7 5/8c and 7 1/4c; Arne, 14,000, Booth, 7 5/8c and 7 1/4c; Harding, 10,000, Sebastian-Stewart, 7 5/8c and 7c; Faith, 7,500, Whiz, 7 3/4c and 7c. The price of cod in Seattle was 2c.

The funeral of Carl Giske, formerly of the halibut boat Sunset, who died in marine hospital at Seattle last Saturday, took place in the Puget Sound city today. Giske is survived by a widow and several children in Norway but has no relatives in this country.

Dr. Neal Carter, director of the Prince Rupert Fisheries Experimental Station, will leave next Monday afternoon on the Princess Norah for Vancouver to attend sessions of the Pacific Coast sub-executive of the Biological Board of Canada. John Dybhavn, local member of the Biological

Board, will leave Tuesday afternoon on the Catala to attend the same meeting. On his return to Prince Rupert about the middle of May, Dr. Carter expects to be accompanied by Dr. W. A. Riddell, who is coming here from the University of Saskatchewan to join the scientific staff of the local station.

One-third interest in the well-known Seattle halibut boat Albatross has been purchased by John Blum, formerly of Etersburg, from John and Elias Linovog of Seattle.

Capt. John Ivarson passed through yesterday with the halibut boat Melville, taking a catch of halibut to Butedale for delivery to the Canadian Fishing Co.

Pilot "Ginger" Cootie hopped off from here at 5 o'clock this morning for Vancouver on the return flight south with C. P. Riel who came north to make an inspection of the Eddy Pess mine which the Ward Mining Co. is taking over from Frank Patterson, pioneer Porcher Island mining man. Mr. Riel came in last night by gasboat from the property after having spent the day there.

Mrs. John Husvig, whose husband is trolling at Squadree or Banks Island, has been admitted as a patient to the Prince Rupert General Hospital.

**FIRED ON SWANS**

Editor, Daily News:

In these parts it is more or less a rare occurrence to have birds of southern climes stay around. Over on the Queen Charlotte Islands, a number of swans have been wintering, in fact remaining all year, and the people there are doing all they can to induce them to stay.

Early this spring a pair of swans arrived and settled at the upper end of Shawatlans Lake and appeared to have decided to remain there. Then one day a party of apparent "sportsmen" visited the lake, sighted the swans and opened fire. The swans took wing and, apparently, one of them had been hit. After some days one returned to the lake, where she can be heard at all times of the day

apparently calling for her lost mate.

As these birds seem to be travelling and settling in pairs, it is very doubtful just how long this one will remain. And it is just as doubtful if another pair will again locate there.

It seems most regrettable that people will deliberately do such a thing. A pair of these graceful birds is quite a novelty in any location and one would have thought that they would be considered welcome and be permitted to stay, rather than being shot at. At least, that is the way I feel about.

OBSERVER.

**"SAFE" TOWN LOSES RECORD**

GRANTHAM, Eng., April 30: (CP)—Known as the "safest borough in England" because there had not been a fatal motor accident since November 1934, Granttham has lost its record. An elderly woman was killed at a crossing recently.

**PLANES "PEST" TO SHEEP**

NORTHAMPTON, Eng., April 30: (CP)—Northamptonshire farmers declare low-flying airplanes are becoming a "perfect pest." One man said ewes are so frightened they had trouble with lambing or gave birth to dead lambs.

G. W. Cripps, provincial assessor, left on last evening's train for a brief trip to Terrace on official business.
