#### NOISE INDICATES WEAKNESS

There are a number of noisy people in every community. They talk loud and sometimes shout. They cannot argue but instead they emphasize what they have to say by noisy declamation. Usually they are disagreeable people and should be avoided.

Noise usually indicates weakness and unfortunately we have noisy people in all walks of life. Unfortunately there with the Giants which may prove are some of them in places where a quiet voice would be the turning point in the final penmore desirable.

#### A GRIM STRUGGLE

It is doubtful if Canadian people realize just what this streak at Detroit by overwhelming Spanish civil war means or how terrible a thing it is. For French and English to be shoot-the Detroit Tigers being left in ing each other down in this country would be a terrible fourth position.

Let us again suppose that those who espoused the C. C. F. and Communist cause in Canada were to be set upon by the capitalists and an effort made to exterminate them by killing them off, in case they happened to get a majority of members in Parliament. That would be an even worse struggle than French versus English. In every community the hand of neighbors would be turned against each other and it would mean a fight to the finish. Yet that seems to be just what Communism or Fascism means. Either would seize the administration and establish a dic- Baseball Standings tatorship. We can hardly think of such conditions in Canada, but that is what is going on in Spain. Members of the same family are fighting against each other, members of the New York present ruling party known as loyalists fighting against Chicago Washington attacks from the party that ruled previously, known as washing rebels. No war can be so terrible as this and any attempt cleveland to create such a condition in any country should be Boston promptly nipped in the bud.
