**WHIFFLETS From the Waterfront**

Thursday afternoon Pilot Alex Holden arrived with his commercial airplane from Juneau with party consisting of William Murray, A. C. Cordovade, W. A. Appleby, Charles Petersen and Edlar Davis of Fairbanks. The first-mentioned four sailed the same evening on the Prince Rupert for Seattle while Davis left on Friday evening's train for Detroit. Sunday afternoon Pilot Sheldon Simmons arrived with party consisting of William J. McCarty and Mrs. L. J. McCarty of Fairbanks, Mr. and Mrs. A. Mathieson of Flat and J. G. Gavin of Nome, all of whom proceeded from here to Vancouver on the Catala this afternoon. Mr. and Mrs. Mathieson are going on a trip to Europe and the others

are bound for the Eastern States. Pilot Simmons hopped off at day-break yesterday morning on his return to Juneau and was expected back here again today with another party of passengers in time for the Catala.

The steamer Catala set a new record for early arrival from the north when she got in at 4:30 this morning from her regular weekly trip to Stewart and Anyox. The vessel sailed at 1:30 this afternoon for Vancouver. She had favorable weather on the northern end of her voyage and had little freight to handle at points of call.

Having left Vancouver at 2 o'clock Saturday afternoon instead of 8 o'clock Christmas night as her regular schedule called for, C. N. R. steamer Prince John, Capt. Neil McLean, is not expected here before Thursday morning from the Queen Charlotte Islands.

Motorship Bellingham is due in port this evening from Ketchikan with five carloads of frozen fish for transshipment east over Canadian National Railways.

"These truths are self evident; that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness."

Since Jefferson uttered these memorable words, they have been criticized often. Some folk deny we are all created equal but there are few today who would deny the lowliest individual's right to life, liberty and the pursuit of happiness. "The pursuit of happiness!" It's a long chase!

One of the greatest factors contributing to the sum of human happiness is warmth, a warm home; just as nothing is so cheerless as a cold one. To be warm at home and happy, you want the best coal and the most heat for the least money. Albert & McCaffery's coal has been the best available for the last twenty years. It is the best today and if better could be got they would have it.

Next time you need coal, just—
