BURRARD ELECTION

It seems quite likely that the election in Burrard will be a lively one. With Dr. Telford in the field representing the radical section of the C. C. F. backed by the Communists it is difficult to say what will happen. So far the Conservatives and Liberals have not yet nominated and there is always the possibility that one of the Connell Socialists may enter the lists against Telford. The difficulty is that they seem to have no outstanding man to take up the fight.

In an election of this kind a great many people who love Philadelp to see a fight vote for a firebrand in order to see what he will do when he is elected and generally they are disap- Famous Bike pointed.

MADE A PROFIT

The Pacific Great Eastern Railway made a profit during the first half of this year. True, it was not a large profit. It amounted to about twelve thousand dollars, but that was better than the deficit of over twenty thousand McNamara, famous "iron man" of for the corresponding half year of 1935. LESSON IN PREPAREDNESS

Now that the war in Abyssinia is almost forgotten, we may possibly without any emotion consider what it means. In Victoria there are a few obsolete forts. In Vancouver cond set after T. W. Brown and C. they have some militia forces but nothing of any value in J. If weather permits, the less disorganized infantry militia which it is understood match will be resumed tomorrow is being changed into artillery soon. None of these would evening. be of much value without guns and planes and fortification. Our little destroyers have no place to which to re-

treat when pursued. Possibly we may not need defences. We have not needed postponement of the city chamthem yet but possibly we may need them badly some day and they will not be there. Russia feels it necessary to call all her young men to the colors for military training. We sit calmly and hope for the best.
