Sunken Pile Driver at Dry Dock—Mickey Sullivan Brought to Hospital—Merry Christmas to All

The Armour Salvage Co.'s piledriver outfit, which turned over and sank last week when it fouled an old pile while engaged in repairing the company's floats, was hauled up to the dry dock in a sunken condition on Monday morning where the big crane was used to put it on an even keel after which it was pumped out. Later it will be taken on the pontoons. Contrary to first expectations, the hull was not holed, the bottom being undamaged.

M. D. (Mickey) Sullivan, veteran Oona River salmon fisherman, was brought to the city by Bert Hanson at noon yesterday. He is quite ill, and has been admitted to the Prince Rupert General Hospital for treatment.

Mr. and Mrs. Charles Clay arrived a few days ago aboard Mr. Clay's trolling boat from Warke Canal to spend the Christmas and New Year holiday season here visiting with their son-in-law and daughter, Mr. and Mrs. Alex McLean.

Harry Scott arrived in port during the week with his power boat Lila from his hand-logging operations down the coast to spend the Yuletide season. He has already been seen in deep conclav with Oscar Haveroy and others of his old cronies. During the holiday season Harry will organize a local branch of the Ancient, Honorable and Successful Order of Owl Hunters. When asked today as to the qualifications of membership, Harry said the charter list would consist of only three, the other charter member, besides himself and Oscar, being at present considering an offer to go to South America to rid the Plains of Patagonia of the dreaded web-footed owl. Other matters of moment to be taken up by the new organization will be why Henry Hansen was the only one who received his magazine following the visit here a few months ago of a beautiful lady canvasser and why Oscar Haveroy's affair with a lovely northern Princess of royal blood, although heralded in these columns about a year ago this time, has made so little evident progress during the twelvemonth.

H. V. Morehouse, superintendent of the B. C. Packers operations in the Rivers Inlet district came north from Vancouver to Namu on the Prince Rupert this week.

Jimmy Kelly, having resigned his position as assistant lighthouse keeper at Triple Island, where he has been located for some time, arrived in town yesterday aboard the lighthouse tender Birnie in time for the Christmas festivities.

This department of the Daily News on this Christmas Eve extends to all its readers and friends the compliments and best wishes of the Yuletide season. That the day will be replete with gladness and all the good things of the occasion, each according to his taste is our hearty wish.

HOME PLAN TIGHTENED

Another Loophole Plugged UP By Government

TORONTO, Dec. 25: (CP)—"Another loophole in the Home Improvement Plan of the National Employment Commission has been plugged," says the Financial Post. "It will no longer be necessary for the home owner to make personal application for a modernization loan. Under the revisions announced the other day the contractor selling the job will at the same time simply get the home owner's signature on special forms now being mailed to bank branches.

"Hitherto two operations were necessary. The home owner had to be sold on the improvement contemplated and then the contractor had to wait until the owner went to the bank, talked the matter over, and obtained his loan. It was feared that the lapse between the selling and the loan application might prove fatal in many instances. So the government authorities have now decided to follow the plan of the finance companies which have always endeavored to get the signature on the dotted line immediately following the sales talk.

"Now the improvement contractor is to do the same thing and armed with a signature he and not the home owner will make the trip to the bank. If the contractor is able to satisfy the bankers that the customer is a good risk, that is all that will be necessary. If not the contractor will have to persuade the home owner to convince the banker.

"Under the new plan where the customer is considered a good risk, the contractor will do the work and be paid directly by the bank. It will not be necessary for the money to pass through the home owner's hands at all."

SANTA UP TO TIMES

Now Sends Telegrams to Warn Of His Approach

Santa Claus, though an ancient old chap, finds it necessary to keep pace with the times in order to fulfil his obligations to the vast multitude of his little folk and, in so doing, uses all means of modern inventions in transportation and communication to reach the many boys and girls who each year are being added to his calling list.

An idea which has been of great assistance to Santa Claus is the use of the telegraph in sending messages to his little friends. The telegraph companies have this year made provision so that parents can arrange for Santa Claus to send messages just before Christmas and in some cases he sends the kiddies messages at any parties which they may be holding about Christmas time.

All that daddy or mother has to do is to get in touch with the nearest telegraph office and the matter will be attended to.

Last year, from reports received by telegraph companies, the kiddies were overjoyed at hearing from their universal friend and, when the telegraph messenger arrived at the door with the message from Santa stating that he would be calling around on Christmas Eve, great joy was brought to the hearts of the children. The messages are dated at the "North Pole" and Santa Claus signs them himself.

GOTHAM LIKES CORAL

NEW YORK, Dec. 24: (CP) — Genuine coral and turquoise shown in necklaces and pins are among New York's costume jewelry favorites.

Copper Price Is Up Again

Reaches High Point Since July 1930 —Silver is Unchanged

NEW YORK, Dec. 24: (CP)—Active trading in foreign markets sent the price of export copper to 11¾c per pound, a peak price since July 1930, on the New York metal market yesterday, this being an advance of ⅛c per pound over Tuesday's quotation. Heavy demand for industrial and armament uses in Europe and some speculative buying was the reason for the bull market.

The price of silver was down ⅛c from Tuesday at 44⅞c going up again to 45c today.

LONDON, Dec. 24: (CP)—Convicted of intent to procure miscarriage of women, the name of a Harley Street woman physician was struck from the Medical Register.
