### ABERHART'S LATEST

We have tried not to criticize any of the Social Credit movements, howing that possibly this might be the way out of the present financial impasse by which there are plenty of goods but no money with which to buy. We have micals 3. held back when others have been prophesying disaster to the Aberhart scheme in Alberta. We have felt that, if it proved to be warkable, the scheme should be adopted.

It now seems evident that the leader of the party did not know what he was talking about when he promised i the electors of the province a dividend of \$25 a month. This has now become clear because he is planning appointment of a commission to inquire into the feasibility of the scheme which he has been advocating and on which he was in the supreme court of British! returned to power.

The proposed inquiry is an admission that the leader in the Matter of the "Administration has no scheme and never had one. He seems to have been relying on Major Douglas, chief proponent of Social in the Matter of the Estate of Margaret Seattle Credit, to work out a scheme for him, but the major could not risk his reputation on so futile an effort.

We are still toping that Mr. Aberhart will put his pointed Administrator of the Estate of Edmonton ideals into practice in order to make a test. If there has to be a pioneer, why not Alberta? If the people there try having claims against the said E it, we shall be in a better position to discuss it in future.

### SAILING UNDER FALSE COLORS

There are still many people who profess to be Liberals in politics who should be supporting the Conservative Dated the 26th day of February 1936. party and there are a number of progressive men on the Conservative side who should be in the ranks of the Liberal party. To illustrate this:

Some years ago in one of the medium-sized cities of In the Matter of the Administration Act Canada there was an editor of a Liberal newspaper who was always opposing anything new. When motor cars were introduced he ridiculed them continuously and de- Honor. clared that they never could take the place of the old fash- February, A.D. 1936, ioned horse. And yet readers of this paper were informed Evans, deceased, and recently that not a horse is left in Prince Rupert. All have by required to furnish been ousted by motor traffic. The car has triumphed over the horse.

The editor in uestion was supposed to be a Liberal but to me he was not. He was always looking backward, never forward.

So there are in Prince Rupert plenty of people who are 1936. opposed to all change. They are Conservatives in reality but at election time they line up with the Liberals and vote for policies which must mean change.
