BONDSMEN

Mounting Relief Costs in Maritimes has caused some concern. Is Problem Investment Dealers Are Told

JASPER, Alta., June 16: (CP)-Legislation permitting operation of provincial savings banks in New Brunswick and amendments to the Security Frauds act modifying restrictions on registration of securities were explained in the report of W. I MacDougall today before the annual convention of the Investment Dealers' Association of Canada.

The legislation originally compelled registration of every seculity subject to a 10-day delay before it could be listed, the Maritimes district chairman said. In its amended form the bill per mits only registration. Further action is optional with the regist-

Meet Obligations

The record of Maritime municipalities in accepting bond obligations remains unimpaired the report states. In New Brunswick the aggregate for all municipalities, cities and towns indicated an assessed valuation of more than \$123,000,000 and personal property \$18,000,000.

The bonded debt of the province totalling approximately \$27,000,000 was equivalent to 19 percent of the total assessed value. Sinking funds total more than \$7,000,000, equivalent to 25 percent of the total debt.

Similar conditions were reported in Nova Scotia where older established municipalities were in a very strong position. Chief problem in the Atlantic coast provinces, however, was the mounting cost of unemployment relief. Mining municipalities in Cape Breton Island were chiefly affected.

Out of 15 counties in New Bruns-Wick, those of Albert, Carleton, Charlotte, Sunbury and Westmoreland have no funded debt. The county of Kings with a debt estimated at \$12,000 has a sinking fund of more than \$13,000 with assurance of a credit balance when the bond issue has been retired.

WORK FOR CANADIANS

Greater Measure of Employment On Government Ships Urged By Committee

Greater employment of citizens REDUCTION on steamships operated by the government or under federal subsidies on the Atlantic and Pacific is aimed at in recommendations mittee on industrial and international relations which was .tabled yesterday by the chairman, Cameron R. McIntosh.

It was specifically recommended in the report that fifty percent of those employed in stewards' and firemen's departments of the Canadian National Steamships Limited by Canadian citizens domiciled in Canada.

Regarding the Pacific it was recommended that the Canadian Pacific Steamship Co. be reunired to use only Canadian seamen in deck services of the Canada-Oriental line.
