FIRST: "CATCH YOUR PRINTER"

DIRECTIONS FOR COOKING A HARE: FIRST:-" CATCH YOUR HARE"

To produce good printing you must "first catch your good printer. . . You can't get good printing from a poor printer, even if he work with never so good an equipment. If he lacks the "knack," the trained taste, the single-minded fondness for his work which real printers have, he will do poor printing for you. If he has all of these, and in addition to them adequate modern equipment, your printing will have distinction, salesmanship, the lure of type-beauty.

As this office produces good printing you may infer the presence of a good printer-who is "catchable."

Wood, \$875; Jimmy Galvin, \$1200; Fred Pfeffer, undoubtedly the greatest second baseman of his time, \$750-about Eddie Collins' gasoline bill for a year-Buck Ewing, the daddy of all the catchers, \$1000; Time Keefe, \$1500; and Big Roger Connor, \$900. And even in the inflated period which marked the Brotherhood's brief existence, the highest salary paid any one of these stars was to Buck Ewing, who is said to have received \$5000, with the others receiving varying salaries from that down to \$2500. The 1881 salaries would be small now
