more concerted action in the development of the port along the lines intended when the railway was built. We realize that economic conditions make the full development impossible as yet but we feel that members of the government, particularly Hon. W. D. Euler, minister of trade and commerce, and Hon. C. D. Howe, minister of transport, representatives of the two departments vitally interested, are much impressed.

"We also saw S. J. Hungerford, president of the Canadian National Railways; A. E. Warren, vice-president, as well as Mr. Foreman, foreign freight agent in Montreal, and found each much interested in any suggestion which would help to obtain more waterborne traffic out of here, thereby creating larger traffic for the railway.

"We feel satisfied that we are going to get some development."

Mr. Nickerson found in Ottawa that Mr. Hanson was very highly thought of. "In fact, no member stands higher with the government than he.

Mr. Hanson came as far west as Legislature for Esquimalt and Kamloops with Mr. Nickerson. Af- at one time House leader for ter a brief visit there, the local member was coming on to Vancouver and Victoria to spend a few days before returning here next week via Bella Coola aboard the steamer Cardena.

SETTLEMENT IN BULKLEY

Conrad Tugnum of Switzerland Arrives to Join Countrymen

Fears War

Takes Over Two Well Known Farms At Glentanna

The property consists of two farms occupied by John Lapadat, one of which Mr. Lapadat owned himself and one being rented by

Mr. Tugnum arrived from Switzerland about two months ago and has spent the time he has been here in thoroughly sampling the soil of many farms throughout the district and eventually made the purchase of the farms mentioned. He is an experienced farmer and

was also manager of a cheese factory in Switzerland and he sees a great opportunity in the Bulkley Valley for both a cheese factory and a creamery.

Several other countrymen of his

have settled in the Bulkley Valley prior to the coming of Mr. Tugnum and there is no doubt that these Old Country farmers will prove to be a distinct asset to this country. Mr. Tugnum, who has his family of a wife and three young sons with him, says that he is of the firm pinion that a European war in he near future is inevitable. In lact, he was afraid that it might be on before he could get out of the country and he did not wish o bring up his boys in the shadow of such a catastrophe.

The real estate transaction was handled through the office of L. H. Kenney of Smithers and the farms are two of the first pieces of land to be taken up in the early settlement of this valley.

VANCOUVER, Nov. 12: - Dr. The old road house, "The Gla-Frank C. King May Abdicate?

MRS. WALLIS SIMPSON

LONDON, Nov. 12:-"The Week" shocked the British public yesterday by frankly discussing the possibility of the abdication of the King in order that he might marry Mrs. Wallis Simpson. It was the most open discussion of the subject which has so far appeared in the British press. (An excellent study of Mrs. Ernest "Wally" Simpson, formerly of Baltimore, Md., in the flat at Bryanston Court, London, where she and her husband entertained King Edward VIII when he was Prince of Wales. Following her filing of suit for divorce, Mrs. Simpson left the flat and established a new residence in Cumberland terrace, less than a mile from Buckingham Palace).

Construction of Federal Building to be Commenced This Winter: Site Settled

Plans for the new federal building, appropriation for which was made at the last session of Parliament, are now being prepared by Max Downing, Vancouver architect. It is hoped that they will be ready so that tenders may be called in December and the contract let in January. The site will be on the old Court House square. This has been definitely decided upon.

Such is the interesting information brought to the city by G. W. Nickerson who returned yesterday from a trip to Ottawa.

Mr. Nickerson also learned while in Ottawa that * 10-round decision from Mid- * Admiral Harry Hamlett.
