### FIRST: "CATCH YOUR PRINTER"

DIRECTIONS FOR COOKING A HARE:  
FIRST:—"CATCH YOUR HARE"  
To produce good printing you must "first catch your printer." You can't get good printing from a poor printer, even if he works with never so good an equipment. If he lacks the "knack," the trained taste, the single-minded fondness for his work which real printers have, he will do poor printing for you. If he has all of these, and in addition to them adequate modern equipment, your printing will have distinction, salesmanship, the lure of type-beauty.  
As this office produces good printing you may infer the presence of a good printer—who is "catchable."

## ITEMS OF SPORT

Richard Arnst, of New Zealand, world's champion sculler, who is visiting Australia has cabled Eddie Hanlon Duran, the Canadian sculler, who is anxious to meet him, agreeing to meet him. A favorable reply was received, Arnst said that he would go to Toronto.

The sporting press of Paris is unanimous in its opposition to the further matching of whites and negroes in pugilistic bouts in that city. Writers declare the spectacle presented at such meetings is not only disgusting, but farcical from a sporting standpoint. This means trouble for Jack Johnson if he attempts to fight there. It is known the champion is planning such a move.

Players who will share in the splitting of the receipts for the world's baseball series are assured of enjoying the biggest slice ever handed out. In previous years \$1800 was a high water mark, but when the present series ends, indications point to the individual players drawing down as much as \$3000 each. For the three games already played the receipts have totaled \$195,914. Of this the players are due to receive \$105,793, and the next game at Philadelphia, the last in which the players share, added at least \$25,000 to the purse. This means close to the \$3000 mark for each of the winners and at least \$1000 above the previous mark of previous world's series.

That girls can help win football games even if they can't play them was demonstrated recently when the Medford High School team defeated Grant's Pass football team, 39 to 0.  
Before the game the football squad was given a luncheon prepared by the high school girls in the domestic science department of the high school. It was cooked according to the advice of the coach and the direction of the teacher in that department and was calculated to contain the maximum of strength-giving power and require the minimum of digestive power.  
Bean soup, poached eggs, toast and spring water comprised the menu. The girls cooked the meal, waited on the boys, then went to the game and "rooted" lustily for the warriors they had fed.  
Their vocal enthusiasm was superfluous, however, for the soup and poached egg players simply swamped the Giants' Pass eleven, who had to rely for nourishment upon what the Medford restaurants offered.

With a view to clinching for years to come the title of "the fastest car on earth," arrangements have been made by Jesse Froelich, manager of the Benz Auto Import Company, whereby "Bob" Burman and his manager, E. A. Moross, with W. Maass, secretary of the Benz company, will leave next Saturday for a trip abroad to obtain the most powerful racing Benz ever built, a 300-horse power car, which has been under secret construction for the last three months.

Not satisfied with holding the world's speed records with the "Blitzen Benz," Burman seeks, with a faster mount specially built for him, to win glory on foreign tracks. It will be the first time that an American driver of note ever invaded foreign fields for the avowed purpose of shattering all speed records now held abroad.  
On his arrival in Germany Burman will ship the "Greater Blitzen Benz," equipped with American tires and accessories, to the Brooklands track in England, where he will make an effort to lower all marks held on that track by the celebrated French driver Memery, with the "Blitzen Benz." After these record trials, and showing what he can do on the English beach at Saltburn-by-the-Sea, Burman will bring the new 300-horse power Benz to the United States and arrangements will be perfected at once for world's speed record trials at Daytona beach, made famous last spring by Burman in his "Blitzen Benz," which will also be taken along. Efforts will be made to arrange for a contest at that time between Burman in his new Benz and the new 300-horse power Fiat or any other car and driver.

## THE COSY CORNER

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

### REPOUSSE LACE Newest and Nicest Fairy Fashion for Frocks

All the new laces that have a heavy raised design on a net foundation are now called repousse. There is a wide demand for this sort of lacework, although it differs from filet and the ecclesiastical laces that are also in favor. There never was a season like this one for lace, anyway. Whole rooms are given over to it in some of the big shops, and machine-made and hand-made kinds vie with each other in beauty and dignity.  
Almost every kind of lace in the world has known has been revived. No gown or simple coat suit seems complete without the addition of some pattern. The huge Revolutionary revers are made of marvelous meshes, sailor collars are cut from pieces of square laces that have figures of all sorts woven in the net, and stocks and chemisettes are made from the fine French laces that have been revived this summer.

### BREAD-AND-BUTTER HABIT Avoid It Unless You Want to Grow Fat

Many women become fat merely by what a doctor calls the "bread-and-butter" habit, an apparently simple diet, confined in the main to tea and bread and butter, sandwiches and eggs, which, however, is one of the best methods of producing flesh. Those who wish to reduce their weight must abstain from bread and butter, and substitute bran biscuits without butter, though dry toast may be allowed with dinner.

### GIRLS GIVE BOYS HOT CAMPAIGN Students Have to Smash Slates to Keep Athletics in Hands of Masculine Element.

North Yakima, (Special)—After resorting to nearly every political device during a campaign which lasted two weeks, the boys of

### WOMAN HOLD-UP LOST HER NERVE She Apologizes and Disappears When She Hears Other Pedestrians Approach.

Harry and Albert Terry, while walking down Third avenue one night recently in Spokane, were confronted by a woman wearing a gray overcoat, a slouch hat and a mask.  
With a revolver she compelled the brothers to hold up their hands and backed them thirty feet down a side street.  
Then she heard pedestrians approaching, however, and lowered her gun, uttered an apology for disturbing the young men and disappeared.

### KILLED BY DUMB WAITER Young Woman Strangled When Automatic Lif Shoots Upward.

San Francisco, Oct. 26.—Miss Eva Fotheringham, aged 19 years, was strangled here tonight by an automatic dumb waiter. The young woman was removing groceries from the lift, when it shot upward, pinning her head against the wall. She was alone in the apartment at the time and was dead when discovered by her sister.

### A MIND-READING TRICK Makes an Amusing Interlude at An Evening Party

By means of the table of letters given below it is possible to do some clever mind-reading, to the bewilderment of the person "read." Suppose, for instance, you do not know the full name of the person. Get him to inform you in which of the upright columns, or column, the first letter of his name appears. If it is found in only one column, it is the top letter; if
