### UNFAIR TACTICS

At Ottawa recently the C. C. F. leader introduced a re- studios as possible? Right now we solution asking that where citizens of any country are not allowed to vote in Canada they be kept out of the country altogether.

As a matter of fact Orientals are not coming to Can-ceiver in our control room, while ada at the present time and there is no likelihood of their coming as long as meddlesome parliamentarians looking pick up programs other than our for political capital will leave them alone. Despatches by what authority does he confrom Ottawa to a number of coast newspapers make it sider himself competent to judge, look as if the present administration at Ottawa was whether our equipment is adeagainst exclusion of Orientals. All they did was to kill the C. C. F. motion which meant nothing. The movers knew very well it would be bad policy to pass such legislation as they suggest and they also knew there was no need for such legislation. Conservative newspapers on the coast took advantage of the position to publish perfectly truthful despatches which were most misleading to their readers. Both Liberals and Conservatives are opposed to Oriental immigration of any kind yet the despatch would make it appear the government favored it. The C. C. F. favor giving the vote to Orientals and yet the despatches PHONE-957 would suggest they were the only ones opposed to Orientals coming to this country.

People who are always trying to make petty trouble over affairs of this kind should remember what happened when a shipload of people from India sailed into Vancouver Harbor and were not allowed to land. This caused a great deal of trouble to the British authorities in India with the loss of a number of lives.

At present we have a most reasonable friendly arrangement with the government of Japan by which they control their migration to Canada and it would be a pity if action such as that recently taken at Ottawa should disturb this plan. While, doubtless, the Japanese realize that the resolution is a factious effort of a small minority, yet it is these petty mischievous meddlings that often stir up trouble.

If you have something to sell, a classified advertisement in this paper will soon let you know if there is a buyer in the city.

# "Canada's Greatest Trusteeship

# Guards the Savings of 3,500,000 Canadians"

HON. CHAS. A. DUNNING Minister of Finance

THE Honourable Chas. A. Dunning, Minister of Finance, very aptly describes Life Insurance as "the greatest economic trusteeship within the boundaries of this country".

"Millions of small investors," points out Mr. Dunning, "rely upon this trusteeship to handle for them their small savings in a manner which would be impractical and impossible for them to do themselves."

Bearing out the truth of the Finance Minister's statement are several important facts:

First - As trustees for thrifty people, Life Insurance Companies distribute millions of dollars each year to policyholders and beneficiaries - keeping

homes intact, relieving distress, educating children and providing financial security in old age.

Second - These Life Insurance Companies in Canada are responsible to more than 3,500,000 policyholders for the administration of savings totalling more than Two Billion Dollars.

Third - The accumulated savings of these policyholders benefit all Canada, through investments in homes and farms - industries and utilities -Government and Municipal securities.

Every Canadian policyholder can feel justly proud of sharing in Life Insurance-Canada's "greatest economic trusteeship".
