

TO KEEP THE PUPILS FIT

Dr. N. McNeil Appointed Medical Health Officer for the Public School. Janitor's Salary Raised. Use of School Building by Outside Organisations Vetoed.

Dr. Neil McNeil has been appointed Medical Health Inspector for the Public School of Prince Rupert at a salary of 125 per month. His duties will be to keep a watchful eye upon the physical condition of the pupils generally according to the latest educational ideas and to report and act upon any cases of defective sight, hearing, or other physical imperfections found liable to impair the child's aptitude or health at school. Physical examination of the children will be held periodically.

It had been at first intended to appoint Dr. J. O. Reddie, medical health officer of the city, to undertake this work, but as Dr. Reddie pointed out to the School Board at their meeting yesterday he as city officer is liable to have cases of infectious illness to attend to at any time when he could not perform his school duties.

A raise of \$15 per month making his salary \$90 was granted the janitor, the raise to take effect from November 1st. General accounts of the janitor's efficiency were given by the headmaster who was present at yesterday's School Board meeting.

The monthly pay roll amounting to \$815 was passed also minor accounts just exceeding \$100. Three coal tenders each of \$9.50 per ton were received from Messrs. Lindsay, Rogers & Black, and the Union Transfer Co. respectively. Messrs. Lindsay will be asked to deliver the November supply, and Messrs. Rogers & Black the December supply of coal for the school if these firms are agreeable to supply a month's coal at the rate quoted.

Applications for teacherships were received from two ladies, Miss Robinson and Miss Mackenzie. They were filed, the clerk being instructed to inform the ladies that there is no vacancy in sight at present.

Principal Hunter mentioned that a lady connected with one of the churches, he thought, was drilling some of the younger children in a Maypole Dance in the school basement. He mentioned this in case the Board had any objection. The Board had objection to the extent that they wished those desiring to use the school building in this way to seek permission by application to themselves in proper course. They agreed that to establish any precedent in giving the use of the building indiscriminately would be unwise.

Principal Hunter reported that school affairs are in general, very satisfactory there being at least 270 scholars in attendance now. Classes are not yet overcrowded, but those of the teachers educating the younger pupils are likely to be so in the new year, and provision to meet this must be made before long.

HENRIETTE TOWS TUG ESCORT

Picker Her up Disabled with the North Bend in Tow, and Takes Them Both to Safety.

The Prince George brought in this morning of the breakdown of the Vancouver tug Escort near Safety Cove. The tug had the hulk North Bend in tow at the time. The disabled steamer had been picked up by the Henriette which had taken the North Bend in tow to Alert Bay where she will anchor.

The Henriette had arranged to return and take the tug in tow to Vancouver. The spectacle of the Henriette bringing the Escort in tow into Vancouver ought to provide the waterfront loungers with hilarity for some time to come.

ANGELICAN CLUB FOR ATHLETICS

New Organization Fairly Launched and Will Occupy Spacious Hall on Second Avenue.

Quite quietly during the past ten days the young men of the Anglican Church have been organizing an athletic club and last night arrangements were made by which the club shall have the use of the building on Second Avenue formerly occupied by Messrs. Flexman & Brown's, which is suitable for a gymnasium. Tonight the young men interested in this club will meet there to make final arrangements.

Amongst the leading spirits in the organization of the club were the Rev. W. James, Mr. Gamble, Mr. W. E. Fisher, F. S. Long and W. H. Vickers. These constitute the committee responsible for the initial arrangements in the launching of a club which already numbers about seventy promised member and is certain of great success this winter.

W. Kearns was a passenger by the George today.

GOVERNMENT TO RETAIN WHARF

(Continued from Page One)

some time, and suggested that a Government appointed manager of the wharf would constitute a practical means of managing the undertaking satisfactorily.

Commission Again

Mr. D. G. Stewart suggested a commission to have absolute control of the wharf. The Mayor thought that a single manager—call him a commissioner if you like—would do the work fully as well as a commission.

Mayor Gibson remarked that if the concern were going to pay then the city wanted it. If not, then they better let the Government experiment with Government money. (Laughter).

He thought the Government could quite well fix the rates, and one man appointed to run the concern free of the usual Government red tape would satisfy the people of Prince Rupert.

To be Big Job

Mr. Foster expressed the idea that the man put in charge would need to be given considerable authority. He would require to be a man of considerable authority—a man big enough for the job which would be a big one. The adjustment of claims of various kinds for instance was a matter demanding the greatest possible judgment and authority.

Suggested a Resolution

At this point Mr. Foster put it to the meeting that his impression now was that they were opposed to any leasing of the Government wharf. "Is this so?" he asked. "If so I should like it put in the form of a resolution."

Mr. D. G. Stewart put the matter in the form of a resolution: "That this gathering of representative citizens of Prince Rupert is opposed to any leasing of the Government wharf." Cy Peck seconded the motion which the Mayor put to the meeting. It was unanimously carried.

Mr. Foster noted the emphatic expression of the resolution and stated that this was exactly the class of information he wished to carry to Victoria. The question now came to be that of the suggested management of the wharf.

Board of Appeal

To have a Board of Final Appeal in Prince Rupert, which would settle disputes, was an idea which Mayor Gibson declared would suit most citizens.

The idea that the wharf once in good working order would not be a cut throat competitor to the G. T. P. was expressed, and it was suggested that the end would be in steamers calling at both wharves. Mr. Rogers agreed that this would be so at least with carload lots of freight.

Ald. Hilditch's Idea

Alderman Hilditch made the suggestion that the city should run the wharf paying the Government 3 1/2 per cent on the capital outlay and taking all profits above this. In the event of loss the Government to share this with the city. (Laughter).

This Mr. Foster agreed might be considered but the interests of the people of the province must be taken into consideration too.

Want Gov't Administration

Some general opinions were expressed following this motion, and to bring matters to a head Mayor Gibson put the following motion "that this meeting approves the Government's running the wharf." "I am against the city's having anything to do with this," he said. "The council has enough to do." D. G. Stewart seconded. The motion was put by Mayor Manson promptly and as promptly carried without a dissenting voice.

Reconsidered the Motion

After a pause Alderman Newton arose and said the motion had been put rather hurriedly and suggested reconsideration. A. J. Morris was of similar mind and Major Gibson himself moved reconsideration of the motion remarking, however, that his own mind was made up about it. The reconsideration resulted in a little support for Alderman Newton's amendment that the Government appoint a commission to discuss the city's taking charge of the wharf which, however, was lost. Major Gibson's original motion again carried by majority on a show of hands.

Three Commissioners

The idea was mooted by several minds that there should be a commission on which the city should have representation and which the wharf manager could consult in matters requiring joint mind judgment.

This was put into a definite motion by Cy Peck: "That the Government appoint a commission of say three on which the city shall have representation which shall act with the wharf manager." This which Mr. Foster called "an advisory committee," was a suggestion which the Deputy Minister appreciated. The motion was carried.

This concluded the business of the meeting which then accorded a hearty vote of thanks to the Deputy Minister for his visit and the trouble taken to get in touch with the situation.

Mr. Foster's Compliments

In his reply Mr. Foster in happy terms referred to the beauties of the city especially in the wonderful weather he had experienced, and to the courage and efficiency shown by the citizens especially as regards public works. "I do not think you yet realise the tremendous possibilities of your city," he said. "It is not a city of a few thousand inhabitants, but the gateway of the enormously wealthy district of Northern B. C. and Alberta and will be one of the largest cities in British Columbia."

NAAS RIVER NEXT

May Become Smaller Sort of Skeena Next Summer.

It is evident that there is to be extensive development done by the Naas River district in the spring of next year. Firms supplying engineers for river boats are already being approached regarding installations for new boats contemplated, one of the latest being a gasoline driven shallow-draft vessel on the same lines as the Hazelton, only about forty to fifty feet long. A proposal to have this boat built either as a funnel boat or a sternwheeler is under discussion by a small group intending to get hold of some of the business that is certain to be profitable for suitable boats making Naas trips next year.

CROW'S NEST STRIKE ENDED

L. M. Silvester, Assistant General Manager of Granby Mines, on Way to Rupert Receives Information by Wire.

F. M. Silvester, assistant general manager of the Granby company, arrived by the Prince George this morning straight from New York without delay at any stage of the journey.

Mr. Silvester was on his way to Goose Bay to inspect the development work in its present advanced stage and decide on the lines of future development.

"Is it decided definitely that you will have the smelter at Goose Bay?" asked The News.

"Yes; we are fairly well settled on that point," said Mr. Silvester. No outstanding scheme is on the programme for immediate development of the Granby company's Goose Bay mine, but Mr. Silvester mentioned in passing that he had just had a wire from the Crow's Nest Pass informing him that the coal miners' strike there was ended.

George This Morning.

About fifty first class and thirty or forty deck passengers arrived by the Prince George this morning from the south. This is the George's last trip for the season. On Monday she pulls out for her annual lay-up. She was sharp on time today.
