Totals The Junior Chamber of Commerce deserves much BANKERSpraise for its excellent wor kin sponsoring the lectures de-|smith livered by Dr. Harry Warren and Professor Soward. Not Fyfe only did the Junior Chamber make all the arrangements Allum necessary but it paid the hotel bills of the visitors and Barton saw that they were properly entertained while in the city.

Now the Junior Chamber is setting out on another good Totals work, that of securing the finances for the operation of BUTCHERS the museum which is being established in the city. Pos-Morgan sibly this will be a more difficult job than the other but Fisher the museum will be a great asset to the city and we feel A. Astoria sure the people of the city will respond to the efforts of L. Astoria the young men when there is such a cause at stake. Let us back up the juniors for they are the life of the city. Totals

### IN A WORLD OF PLENTY

sociation; Thre This is a world of plenty. There is plenty of everything logical station. for everybody. If there is a shortage of anything it could date is as follow easily be made up if the demand was there and the money to pay for it.

And yet there is a large section of the population that Bankers is unable to get its share of that supply. We all know that. Kaien Motors We also are told that, if the surplus of the rich were di- C. N. R. A. vided up among the poor, there would be an increase for Butchers the underpaid section of the community of only about ten Watts Grocery percent. With this problem before them people are much Biological Stati puzzled what to do. We find various political parties fa-BASKETB. voring different remedies. The natural conservatism of the country is against radical changes, especially when the March 5-Moose changes are of an experimental nature. Yet changes will gion have to be made. As long as there is plenty for everybody school in the country, there is no good reason why everybody stone, should not have plenty. To say that the statesmen of the High s country have not brains enough to make provision for vs. Hig this is to sneak very lightly of them and their ability. If they cannot do it, others will be found who will undertake the work.

#### To the Indigent and Unemployed It Says:

"Stand aside! You don't contribute so the health measure has nothing for you."

## To Everyone Earning \$150 a Month or Less It Says:

"You will take medical doctors and hospitalization and like it. If you are a Christian Scientist or a chiropractic patient, O.K., but you'll pay for doctors and drugs anyway. This has never been tried yet on the American Continent-we're going to experiment at somebody's expenseand you have been chosen."
