Next Provincial Election

Member of Audit Bureau of Circulations

There is considerable speculation among politicians as to when the next provincial election will take place. The average person does not care when it takes place or if D. ever it takes place as long as he does not have to pay more the pressing by the city of detaxes and as long as there is employment for everyone fence in lawsuits entered by variwilling and able to work.

Illing and able to work.

It is curious to read the southern newspapers. If Pre-would be a losing fight for the mier Pattullo goes to Ottawa it is to secure money for the city. election or in some way to prepare for the election. When Hon. John Hart goes to New York, it has political significance in connection with the election. Government No More Coughing leaders cannot take a holiday because they would be taking a rest preparatory to the big election fight. There is or Sleepless Nights never a suggestion that the government leaders might be working in the interests of the province as a whole. How could they? There is an election in sight within the next two years.

Members of the Legislature well know the object of Premier Pattullo's visit to Ottawa. He told them all about it in that quiet talk he gave them at the close of the session. He is there to urge a line of federal policy which will be just to British Columbia and beneficial to the whole of Canada. Such a policy would of course be good election material but the election has nothing to do with the visit or with the object of the visit. Premier Pattullo would be working for British Columbia just the same if there were Week-End Specials no election within forty years.

No Reason For Election

Just now there is no good reason why there should be JAP ORANGESa provincial election. The affairs of the province are being per box administered without friction, conditions are improving, work and wages are being provided for most of the people McIntosh Applesand the remaining fraction will soon be working too, if it wishes. At the present rate of progress there should be no EGGS-Grade A large unemployed next summer. Industries are flourishing to a greater extent than ever in the past. Steps are being taken to meet the demands for better roads. Under these conditions governments are usually returned to power, so opposition groups are not clamoring for an appeal to the people. They wish to become better organized and would like to find some better reason for asking the public to intervene and stop the progress movement. The spirit of content is more manifest in British Columbia today than it has been in many years.
