For Information and Reservations W. L. COATES, Gen. Agent, Prince Rupert, B.C. SINCE 1857 . . . Borden's have provided pure, safe milk for

GENERATIONS OF THRIVING BABIES

79 years ago, Borden first pioneered better milk for babies. Throughout this time, during four generations, millions of happy, healthy babies have thrived on milk produced by Borden's. And these thriving babies have proved the quality of Borden's milk in millions of normal homes.

This long experience in producing safe, pure milk is your assurance that Borden's St. Charles Milk is unsurpassed in all the elements that build vigorous baby health. Quality and purity are guarded by the most rigid tests in all the dairy industry.

Borden's St. Charles Milk not only contains the nourishment that baby's growing body needs-but it is more digestible. And its ability to build sound bones, and strong, well-developed teeth, is increased by Irradiation for Extra Sunshine Vitamin D.

Mothers: Ask your doctor about Borden's St. Charles Irradiated Evaporated Milk. Use according to his directions.
