So far it has been avoided but at any time a government pledged to such a policy may be elected.

THEIR PROBLEM-To raise money for a temporary need, and still retain their securities.

THEIR SOLUTION-They talk it over with their banker, arrange to borrow against their securities. Within a reasonable time they pay off their loan (for they are thrifty), and will get back their securities intact.

Thus the firm of Mr. and Mrs. have established a line of credit. Perhaps even more important, they have discovered their local bank manager is more than a banker he is their friendly counsellor too.
