GOLDBLOOM The Old Reliable

Tells Club How To Grow Flowers

William Millar Gives Excellent Advice to Rotarians Based On His Own Experience

At the regular weekly luncheon of the Prince Rupert Rotary Club yesterday William Miliar gave the members some practical advice tree was endangered.

mignonette, poppy, annual chrysanthemums, candytuft, godetia cornflower, sweet sultan, and clarkia might be sown outside the end of April or early in May and covered with a bell glass to protec' against drying winds. Air should program of pictures in connection be admitted gradually until the young plants had hardened off.

Perennials that were successful here were aquilegia, border carnations, delphiniums, perennial astors, canterbury bells and scac-

Mr. Millar urged the planting of hedges. He found the hemlock the most useful tree for this purpose. If trimmed in the spring it made a compact hedge, bette: than any of the other native trees or shrubs.

At the conclusion President W M. Blackstock thanked the speaker for his excellent advice.
