STAY ON JOB AT OTTAWA

Prince Rupert's member, Premier T. D. Pattullo, has gone to Ottawa to stay until he gets things cleared up. He is reported to have told a Vancouver newspaper that the present negotiations with Ottawa are of a more important character than anything that has occurred during the past twenty years. The issues between the province and the Dominion are so great that it will likely take some time to settle them.

That Mr. Pattullo is the right man to undertake the negotiations just now is indicated by his statement made before leaving for the federal capital. These are said to have been his words:

"As British Columbians it is our duty to see that the interests of our province are protected and, as good citizens of Canada, it is also our duty to endeavor to cooperate for the general welfare of Canada.

"While this may require some restraint and patience I wish to assure the public that we shall do all in our power to further the interests of our people."

It is very clear that the views of British Columbia's premier and those of the average cabinet member at Ottawa are not in accord. People of the west have different ideas from those of the east and these are not easy to reconcile. We do not want to fight the east but we may have to. We may even have to take drastic means of making the east understand that the rights of the west must be respected. This, of course, is a family difference but it is serious all the same. We hope that the provincial premier will be able to show Mr. King and Mr. Dunning that British Columbia views must have proper consideration.

LOOKED ON AS PAUPERS

The east looks upon the west as pauper members of the family who are making constant raids on the family exchequer. As a matter of fact, it is the west that makes the east prosperous. The east fattens on the west. The Vancouver Sun editorially draws attention to this and suggests that, if British Columbia were not a province of Canada, it might buy many goods much cheaper in Japan where it sells its products. Both Japan and British Columbia would benefit. As it is the east benefits from the partnership and howls when the usually subservient west asks for a better deal.

WAKE-UP YOUR

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of figuid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest.
It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work name! Stubbornly refuse anything else, 26c
