VISIT OF PRINCE DAVID

included on the list of ports of call for the tourist steamer with bases loaded. Prince David. For the passengers to spend a day at this port was an indication that the port is being made attractive to tourists and is generally becoming known as a place for people to visit.

What is needed now is more improvements. We must have a few smaller totems to round out the collection. We want Totem Park considerably improved or perhaps it would be better to say completed. Considering that the poles were up only a week or two before the tourist boats began to arrive it is in excellent condition. Some improvement each year and the park will be a credit to the city. So too with the two sunken gardens, one at the railway Baseball Standings park and the other at the back of the court house, both of which will doubtless be improved each year and, with the general co-operation of the city and the individual Chicago citizens, we should in a few years have a city of which to New York be proud and also one that all boats coming north will want to visit with a reasonable stop-off for passengers.
