Rome Says Incident Was IS UP TO And That Colony as Whole Is Calm.

#### Threat Is Made

"Scientific Weapons" May Be Used to Deal Death On Ethiopians—France And Britain Prepare.

ROME, Jan. 2: (CP)-Authoritative quarters admitted today that there had been a revolt in one detachment of Italian troops stationed at Tripoli, Libya, and that a lieutenant had been killed by his men. The spokesman said the incident had been of a local nature and that the whole Italian colony of Libya was calm. Reliable sources, speculating as to the possibilities of an Italian campaign of "punishment" from the air, said today that the Fascist Army had vast quantities of "scienific weapons" that it was relucant to use against Ethiopia. The weapons are being withheld, these ources reported, until such time Ethiopian war practices may rouse a national demand to "fight fire with fire."

and French general staffs are laying down plans for joint action hould Italy retaliate against sancions by acts of war, it is stated

Pattullo's Warning

VICTORIA, Jan. 2: (CP)—Canada was warned by Premier T. D. Pattullo in a New Year's Day message to be prepared to face any contingency that may arise from European strife. The Premier also urged development of the Dominion's export markets and a program New Year's Honors List of public works to relieve unemployment. He further urged development of immigration.

Dominion Government Has No Intention of Entering Health Insurance Field

VICTORIA, Jan. 2:- The Dominion government has no intention of entering the health insurance field, according to an important statement issued today by Hon. Dr. G. M. Weir, provincial secretary.

Dr. Weir stated that it had been the concensus of opinion at the recent Dominion-provincial conference that health insurance was a matter for the provinces and not for the Dominion to undertake. This view was held strongly by the members of the federal cabinet.

"Results of our discussion on this point," continued Dr. Weir, "are most important for British Columbia for they make it perfectly clear that we have no reason to delay health insurance in this province in the hope of Dominion action. At the same time the federal government should be encouraged to supplement provincial effort in matters of public
