WAKE-UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

Twenty-Five Years Ago

March 25, 1911

The one-story bungalow is springing into popularity all over the country as a type of residential construction.

Tom Deasy, Indian Agent at Massett, delivered an eloquent sketch of the life of St. Patrick at a meeting of Irish residents of the Queen Charlotte Islands on St. Patrick's Day.

An illuminating article from the pen of Frederick Talbot descriptive of Prince Rupert appears in the current issue of "World's Work." He predicts a spectacular future for this place which he describes as "The wonder city of the coast" and a "model twentieth century port."

Rev. Robert McFarlane, who was an electrician at the local dry dock during the construction days and was active in boys' work of the local Presbyterian Church at that time, has accepted a call to the pastorate of Westminster Presbyterian Church in Seattle after having been for some time located in California. Mr. McFarlane was some years ago United Church pastor at Vanderhoof.
