Unwelcome Guest

We have often heard of unwelcome guests. People have called on their neighbors for only a few hours and the in the Nelson district, are likely Lake Athabasca country for the the world.

Another story of an unwelcome guest is different from tivities. that. The Norwegian tramp steamer Eli called at Denmark about six months ago and, when the vessel was well Japanese Emperor, spent a day at Roumanian who had stowed away. Since then the vessel circumlocution office where they has called at New York, at South American ports, at Lon-mavigation asked for the past ten vs. C. N. R. A.; Grotto vs. Blueout to sea, it was found that there was aboard a young Ottawa. Possibly he visited the don and a Scottish port, again at New York and then to years by the Prince Rupert Cham birds. Vancouver but still the young Rumanian is with it, unable ber of Commerce. to land at any of the ports. The Eli is now on her way to: Australia with the unwelcome visitor and from there it is Let me see, whose turn is it to vs. Sparkplugs; Grotto vs. Doo. not known where the ship will go. She may not be back win the Spanish embroglio today: dads. in a port where he can be landed for years. The young "Now Miss, what gear were you dads; Annettes vs. Rangers; C. N. man is evidently having a good time but he is never al- in at the time of the car accilowed ashore. By the time he gets home he will have seen dent?" asked the sergeant. "Oh a great deal of the ocean but none of the land, except oc- I had on a black beret, tan shoes, casionally from the decks of the ship.

Still Offering Loans

The banks are still offering loans to those home own-the car, of course," replied the ers who wish to improve their places by additions, renova- doctor. vations or improvements and each month a number of such loans are made. While most people who wish to spend money in this way are in a position to finance themselves, when there will be permanent there has been over a million and a half dollars so loaned and years nearer the time than and British Columbia branches of the banks have loaned were the people who came to this \$200,000. Local committees have been busy in many com- country from Asia. munities and have helped bring the matter to the attention of prospective borrowers. Considerable employment has resulted but not enough to make any definite mark Returning from Iraq where they on the unemployment figures so far. Possibly with the painted the portrait of young advent of spring and improved conditions there may be King Ghazi, the Hoffman twin an increase in the number of loans for home improvement purposes.

Example of the King

The example of the King is being extolled in various health publications. It seems that His Majesty rises early recognition of her 45 years social and begins the day by taking a good dose of fresh air with service work, largely in Japan, physical exercise. He is keen on swimming, golf, riding the Japanese government has and other exercise. The British government is follow- awarded the Sixth Order of the ing the lead of its head by voting ten million dollars Sacred Treasurer and other decfor the extension of physical culture, recreation and Adams, an American woman. health promotion. Evidently the people over there are following British Columbia's lead.

CANADIANS AND THEIR INDUSTRIES ... AND THEIR BANK

THE FOREST INDUSTRIES .

The forest area of Canada on which there is timber of merchantable size is larger than the total area of France and Germany combined; the standing timber on this is estimated at 274 billion cubic feet. An area of even greater extent is covered with young growth.

This vast reservoir of wood is the source from which Canada drew wealth in excess of \$110,000,000 in 1934 (the latest figures available) in the form of primary products such as:

• raw material for saw-mills, pulp mills, wood distillation, charcoal plants;

· logs, pulpwood, bolts, etc., for export,

· firewood, railroad ties, posts, poles, fence rails, mining

maple sugar, balsam gum, resin, cascara, ranbark.

The total value of manufactured products made principally from raw materials of forest origin was \$404,435,948. Forest products in 1936 afforded an excess of exports over imports-\$158,560,000-very important to Canada's international trade.

The Bank of Montreal has co-operated with every activity of the forest industries - assisting in every phase of production and marketing. The Bank has had the privilege of financing a large share of the export business of these industries. Thousands of workers are depositors, sharing in the safety and facilities of the Bank with their employing companies.

Some of the Bank's services most frequently used by employers and employees in the forest trades: Commercial accounts, foreign currency accounts; financing of shipments; commercial loans and discounts; collections; trade and credit information, safekeeping of securities; savings accounts; personal loans, money orders, travellers cheques; banking by mail.
