Shipping Vegetables From Matanuska Valley Through Rupert To United States

On the way to Ketchikan where it will be leaded with potatoes and other produce from the remote Matanuska Valley of Alaska for delivery to the United States, a Dodge truck arrived in Prince Rupert on last night's train from Detroit and was re-shipped this morning aboard the Princess Louise to Ketchi-

The truck, of which J. W. Cates and Al Radeio of Detroit are in charge, will be back here next Sunday afternoon on the return trip of the Princess Louise. It will then be equipped with steel flanged wheels and on Monday will be driven out along the Canadian National Railways from here. Arriving at Hazelton it will be taken off the railway tracks and will be driven by highway east.

It is the first time that such a "stunt" has ever been attempted through Prince Rupert and will, undoubtedly, attract a lot of attention to this port.

As a result of the efforts of S. C. Thompson of this city, the Bulkley Valley will be represented in the shipment, arrangements having been made to load on the truck a sack of potatoes from the farm of Mrs. A. Murray at Doughty.

S.S. PRINCE GEORGE

Prince George Is Making Eleven Hundredth Voyage

Here today on the way from Vancouver to Stewart, the veteran and ever popular coast liner Prince George of Canadian National Steamships is making her eleven hundredth voyage since having been commissioned in service late in 1910. During her long career, the Prince George has covered 1,500,000 nautical miles which amounts to approximately sixty times around the world by sea by way of Panama and Suez Canals. In spite of her lengthy service, the Prince George seems to be just as good a boat as the day she was built.

* It is interesting to note that Capt. H. E. Nedden, commodore skipper of the Canadian National Steamships fleet, came out from England with the Prince George when she arrived on this coast from her builders. He was third officer at the time. Had it not been for being held in Vancouver on account of Mrs. Nedden's illness, Captain Nedden would have been here as skipper of the Prince George today. As it is, Capt. Edward Mabbs is in command.

> There should also be a close watch against all efforts on the part of the south to divert business which should come to Prince Rupert. The transportation companies should be assisted in efforts to obtain freight traffic for this port.

As for connecting up Prince Rupert with the Canadian Broadcasting Corporation system, Mr. Little believed there were no difficulties which could not be overcome. There could be, he believed, a short wave if not a wire connection. The president of the Senior Chamber referred to the value of the local broadcasting station in more closely linking up the surrounding district with the city.

Regarding the pulp mill, Mr. possible in advancing the interests Little stated that Mr. Buckley was LONDON-The French ambas- of the community along well con- still working on the project and sador notified Foreign Secretary sidered lines.
