Let's Stay Good Friends

We will soon be in the throes of another political campaign. The most of us are glad that it will be compara- over here with a view to starting tively short. With April nearly over, only May is left for a come-back campaign, was batthe orators and the campaigners to get in their work. That means the cam- Athletic Club paign, except for preliminary organization of the parties, will not be under way until well into May-making the fight here that much shorter.

We are hoping that the people who will have things to say and do in this campaign with a view to electing candidates will keep in mind at all times that they may have to live here after the election is over and to endeavor, as far as possible, to keep their utterances and statements, whether they be spoken or written, within due restraint. in the McDames Hall. tion day is over, there will be a bad taste left. We can see no good reason why election campaigns should be so productive of pettiness and misunderstanding. Let us be a little more broadminded and tolerant in this one and leave the road open for every one to pull together in the public interest after it is over. Let us work towards a real united front rather than a divided force. Let us all realize too that we may have faults ourselves and that it would be better if we started in correcting our own before we start abusing the other fellow for his. If we start on that ground we are more liable to get places than to begin on the premise that we are faultless and that our opponents have no good in them. Let's observe a few elementary rules of good sportsmanship in this election campaign.

The SALVATION ARMY Annual Self Denial Campaign

The Salvation Army is making the annual appeal for funds to carry on its world-wide work.

During the month of May officers and workers of the Salvation Army will be engaged in this campaign.

The need is great, the appeal urgent for a generous response to this year's financial effort.

Many cars have spark retarded to suppress carbon "ping." Triton allows correct advance setting of spark - without "pinging." Result: You get the mileage, power and efficiency your motor was designed to

SAVES 3. OIL DRAINS

Triton saves oil because it has extreme resistance to "breaking down." It is a safe, fullbodied oil long after many oils are worn out. Should you neglect to drain crankcase at customary time, don't worry about Triton.
