PUPILS STRAPPED

EDMONTON, April 28: (CP)

WAKE UP YOUR LIVER BILE-

And You'll Jump Out of Bed in the Morning Rarin' to go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmf poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25

"You will really enjoy cooking on an ELECTRIC RANGE!"

Cooking by old-fashioned methods is work hard work - even for the best of cooks. The kitchen is hot: fires get mean and sulky: there's the constant running back and forth to see that everything is getting along just right.

An electric range ends all that. Your kitchen is cool and comfortable. You have dependable, even cooking heat at the snap of a switch - for just as long as you want it. And there's never any worry about results -- every dish is perfection when cooked electrically; its full flavour and nourishment value retained to make every meal a treat and a real economy.
