Italo-British Agreement

Italy has developed into one of the leading world powers cars. and it is satisfactory to know that plans are being laid for co-operation with the British in the Mediterranean. The two countries have much in common and should be able ator cars. to do a great deal toward keeping world peace. If they can agree to stop the disastrous civil war in Spain it will be worth a great deal. Imprisonment of Chang Hsueh Liang

According to the news dispatches Chiang Kai-Shek was kidnapped by Marshal Chang Hsueh Liang. That is the prime minister and dictator was captured by one of his placed the board of trustees for the and Wales early in the year while generals who, according to the story, tried to force him management and direction of the Hungary's best went down to a to make war upon Japan. Most people who understand the Oriental mind do not cond phase of recovery from the think that the imprisnment of Marshal Chang means any depression and the country may more than did the rebuke of British Foreign Secretary recovery in all lines of trade. Sir Samuel was given another cabinet position almost immediately. The probability is that the Chinese war lord is confined to a palace until the time is auspicious for him to again take charge of the leftist forces of China and aid the government in an attempt to drive Japan out of China. At any rate he is not pining away in a dungeon.

Chinese Names

In connection with Chinese names it must be remem- ties bered that the family name is always given first. So we sav Prime Minister "Chiang" and not Prime Minister "Shek." Also the marshal who is supposed to be suffering punishment is Marshal "Chang" and not Marshal "Liang." A few Prince Rupert Chinese have adopted the English method such as Tom Lee. In Chinese this should be Lee Tom.

Since the above was written word has been received that the young marshal has been released.

Throughout the year the problem of competition with other forms of transport received earnest con sideration, but it is becoming increasingly evident that, until such time as the competitive situation receives some adequate form of treatment by governmental authprities to place competition on an even footing, railways must continue to bear an undue burden from uneconomic competition. On the other side of the picture, England's disappointing showing in most of the events at the Olympics in Berlin stands out.
