TERMS

Sum of \$20,000 spent by Unuk Concern on Development-Highway Will Open Up Mining Ground -Machinery From Big Missouri to Trail

The work crew that has been employed during the summer months in prospecting and getting ready for operation of the holdings of the Unuk River Placers on Sulphide Creek in the Unuk River district recently came out for the season. During the year some drilling has been completed with results satisfactory to the management

and some little sluicing was accomplished just before the freeze-up. All is now in readiness, it is stated, the old smelter town. for the installation of hydraulic equipment. Within the next two years it is hoped to have the property in production. Coarse gold was found in the course of the last sum mer's exploration work. During the past three years Unuk River Placers has spent approximately \$20, 000 in acquiring and developing employed in the old diesel plant. holdings, much of this expense was Therefore the generators then used necessary on account of costly transportation. This year a road system. was built under the supervision of a Canadian government road crew from Unuk River Placers property to connect with the main Unuk River trail. With the completion can side out to Behm Channel the original locators of the Georgia of the proposed road on the Ameritransportation problem will be River property on the east side of practically solved. In the past air- Portland Canal. Tom McQuillan is superintendent and one of the directors and found-

Competent authorities claim that, Notice of Intention to Apply to Lease when the proposed British Columbia-Yukon-Alaska highway is extended north from Hazelton via Meziadin Lake, Telegraph and Atlin, a vast area in Northern British will be made accessible by cheap mines committee of the House. transportation. This is one of the principal arguments in favor of the construction of the highway.
