The sun is the centre of light which causes growth, vegetation, flowers. There are also many cheery people who, like the sun, always seem to carry cheer, goodwill, happiness and health with them. They radiate good cheer and are a blessing to the world. Heaven is a place where there are enough of these cheery people to dispel all gloom and bring eternal happiness.

NEW ENGINE FUEL

Tests with new fuels in Britain have resulted in the use of colloidal fuel made by mixing sixty percent of crude oil with forty percent of pulverized coal by a number of steamships and it is proposed to use it as the regular fuel in the British Navy. If this is adopted it will mean that the British coal industry will again flourish.

There is also a possibility in this for British Columbia. Not only are there developed mines in Southern British Columbia but there is the vast Groundhog coal deposit that could be made available at any time with comparatively little expenditure. Also there is a very large coal field in the Telkwa River area which could supply very large quantities of fuel. Other coal fields are reported from other sections, the development of which would mean a great deal to the province.

Canadian Legion Last Night in Resumption of Gilhuly Cup Play

Competition for the Gilhuly Cup senior football trophy was resumed last evening with Royal Canadian Naval Volunteer Reserve scoring a rather easy 4 to 1 victory over Canadian Legion which was without several of its regular players including Charlie Baptie, Sonny Dickens, Don Blake, Jimmy Greer and Spiro Gurvich. Score at half time was two to nil in favor of the Navy. Fred Hardy was referee and Carl Johnson and Malcolm Lamb were linesmen. Despite the Legion's handicap, it was a good game.
