She Dreaded Going Upstairs

Woman's Fear of Rheumatic Pains

One of the many troubles that afflict rheumatic sufferers is the difficulty of getting up and down stairs. Such was the case with this woman, before she started taking Kruschen, but now she finds it no trouble. Read what she says:-

"I have been taking Kruschen now for over 12 months, a half-teaspoonful in hot water first thing in the morning, and I feel a new woman. I had very painful rheumatism in my knees and back and also my head was getting very bad. I used to dread walking upstairs, now I am very thankful to say it is no trouble at all and I scarcely have any pains. I feel better in health than I have done for years." -(Mrs.) G.M.

Two of the ingredients of Kruschen Salts are notable for their work in dissolving uric acid. Other ingredients of Kruschen assist Nature to expel the dissolved acid from the system.

PAVING THE WAY FOR START OF REGULAR TRANS-CANADA FLIGHTS

Making a leisurely survey flight from Vancouverto Montreal, examining airports along the route and gathering data for the forthcoming trans-Canada airway, officials paving the way for start of regular commercial flights are pictured as they stopped at Lethbridge, (Top) and at Edmonton as part of their flight. Standing in front of the Lockheed-Electra transport aeroplane owned by the department of transport, as it stands on the Lethbridge field are, A. D. MacLean, federal sup erintendent of airways; Philip G. Johnson, of Seattle, newly-appointed vice-president in charge of operations of Trans-Canada Airlines Ltd.; Wing Com. D. R. MacLaren of Trans-Canada Airlines Ltd.; D. B. Colyer of Chicago, vice-president of United Air Lines Ltd.; Mayor D. H. Elton of Leth bridge and Squadron Leader J. H. Tudhope, M.C., chief pilot of the aeroplane. Squadrone Leader Tudhope is shown again at lower left broadcasting a message from the aeroplane to a radio beam st ation 150 miles away. The trans-Canada machines will fly by radio beam a greater part of their route. At right, is a view of the Lockheed's control cabin with pilot and co-pilot in their seats, as it looks from the passenger's seat. There are 37 dials on the instrument panel to aid in handling the ma
