Crawled Upstairs On All Fours

Owing to Rheumatism in Her Knees

It is not a very dignified way of going upstairs, but she had rheumatism in her knees, and it was the best she could do, at the time. Since then, she has been taking Kruschen Salts, and now feels much better. Read her letter:—

"I had very painful gout in my big toe and could only get upstairs on all fours owing to rheumatism in my knees. It is over three years ago since I commenced taking Kruschen Salts. I must say on damp days I still have a little gout, but my knees are quite better; I am over 60 years of age, have a complexion like a girl's and feel very fit. I am fully repaid for taking a half teaspoonful of Salts each morning in a cup of hot water."—(Mrs.) A. W.

The pains and stiffness of rheumatism are frequently caused by deposits of uric acid in the muscles and joints. The numerous salts in Kruschen assist in stimulating your liver and kidneys to healthy, regular action, and help them to get rid of the excess uric acid which is the cause of so much suffering.
