BETTER LIGHT Makes Better Marks

Are you doing all you can to make sure your children get good marks in school? Do they get enough rest and sleep and good food? Of course, you say! But that's not enough! School days usually mean study nights. And many parents who would never starve their children's stomachs are literally starving their eyes ing light.

Your children live outdoors during the long summer months. Their eyes are accustomed to the intense light of outdoors - up to what lighting experts measure as 10,000 foot candles of light. Indoors, in many homes, their eyes get only 5 to 10 foot candles of light under the average study lamp - when less than 20 foot candles is defin-- with insufficient, or glar- itely harmful to youthful

> Northern British Columbia Power Company

The only way to be sure your children are getting enough light is to have one of our lighting experts measure the actual light vour lamps are now providing. This service is free, and without obligation. Have it done at once!
