There is no way in which merchants can get real returns for money expended on advertising which compares with the local newspapers. It goes before the people six days in the week and, if changed at reasonable intrevals, compels attention. Every person in business Charlotte; J. R. Smith, Smithers; should keep in touch with the public with a regular news- Mrs. H. A. Swain and R. Lewis, Terpaper advertisement. We do not often mention this but race. think it right to draw attention to the fact that this type of advertising is far better than that peddled by transients who collect the cash and get out of town. The same is true of other lines of business.

ATTITUDE OF OPPOSITION

A great many local people seem almost to take offense at the announcement that a pulp mill is likely to be established in the city. Because a previous similar announcment was unfortunately not carried out is no reason why the present should not become effective. It certainly looks like a genuine proposal. As one that would benefit the city tremendously it should be welcomed, one would think, by every citizen. If this second attempt fails, it is just to bad for us, as was the other attempt. At any rate we can all welcome the interest taken in this city by outsiders, who have absolutely nothing to expect from citizens but their approval. We hope they will succeed in their project and make a lot of money out of it. If they do this they will also benefit the city. We shall be in the line of progress.
