GOLDBLOOM

THE OLD RELIABLE

"ASPIRIN" and Your Doctor

Each performs a vital function. "Aspirin" in relieving headache, neuralgia and other muscular pain. Your doctor in locating the cause and correcting it. Intelligent people do not hesitate to call on both.

 This may sound like strange advice for the maker of a headache remedy to give. But, nevertheless, we give it.

If you are subject to frequent headaches, go to your doctor and tell him about it. He may find the cause of your headaches, correct it . . . and make your life far more pleasant.

On the other hand, if you have an occasional headache, step into the nearest drug store, the moment you feel it coming on, and get a box of quick-acting "ASPIRIN". Take one or two tablets with a glass of water, and see for yourself how quickly relief comes.

We refer to "Aspirin" tablets as "quick-acting", for one reason, because they disintegrate or dissolve in the stomach almost instantly you

take them. Hence are ready to start their work of relief very quickly.

Just drop an "Aspirin" tablet in a tumbler of water and you'll get the point at once. You'll see it disintegrating before it reaches the bottom of the glass! And that's the way one acts in your stomach when you take it.

• "Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.
