Heavy Snow At Smithers

Not Much Frost in Ground So It Should be Absorbed Nicely

SMITHERS, Feb. 22:—A new fall of snow came down Saturday morning to be added to the already fairly heavy supply received during the winter. Snow ploughs have been kept busy on the district roads and in the streets of the village and traffic has not yet been very much inconvenienced. There is very little frost in the ground so that, when the snow starts to melt, a great deal of it should be absorbed into the soil which should mean large crops and real money for the Bulkley Valley next year.

After the Coronation the King and Queen will be presented with copies of the service bound in purple morocco with the Royal Arms within a heavily tooled border. Other members of the Royal Family will get less expensive mementos.

Bruce Love jr. sailed last night on the Cardena for Stewart.
