## WHY "STATION GANGS" ONLY?

From its inception the hydro-electric scheme, an excellent enough project, has been under suspicion of being used as a tool for political purposes. The promoters of the scheme again and again act so as to excite instead of allay suspicion. The latest incident is the decision to have the pipe trench cutting done "by station gangs only."

It is a matter of indifference to the average ratepayer how the work is done so long as it is done expeditiously and economically and without injustice to the workmen engaged. For that reason the unusual stipulation that the work is to be done by station gang only, and that the station gangs are to be prohibited from engaging laborers, sounds like a scheme to bar out both the contractors and the station gangs from doing the work.

Despite the provision that the work is to be done by station gangs only, it is understood that the City Engineer is to be allowed to tender. It does not matter how much he undercuts the station gangs, for the citizens will have to make good any deficit on his tender, just as they are now making good his deficit over the retaining walls, which the City Engineer reported could be built for \$8,000.

The whole scheme looks like one more desperate effort to fool the station gangs and the citizens and inaugurate a civic day labor payroll for January. If the work is to be done by "station gangs only," why is the City Engineer, whose tenders are irresponsible, to be allowed to compete? If the City Engineer is to be allowed to compete, then why not the contractors, also? Their tenders are responsible tenders.

If the Board of Works wants to have day labor on the waterworks, why not come out honestly and say so, and fight for day labor in the open?
