SELLS SHIPYARD

Hon. C. D. Howe, Minister of Transport, has recently been responsible for the sale of the Sorei Shipyard owned by the Dominion Government to a private company and is graph in the letter to show to what said to have saved the government an annual loss of \$400,- will abuse the privilege extended 000. If this in an indication of the general policy of the them by a newspaper.—Editor.) government it may mean that it will look with favor on the disposal of the Prince Rupert drydock and shipyards provided it can be sure that the dock will be kept in operation and that a proper shipyard will be maintained at Charles yesterday afternoon from this point as a defense measure.

PREMIER IS MODERATE

The communication of Premier Mackenzie King to Premier Aberhart is very moderate considering the importance of the question at issue. It seems probable that the provincial premier will refuse to await a decision of the supreme court, in which case the recently passed legislation in Alberta may be disallowed.

In view of the importance of the Alberta movement it is wonderful how careful Ottawa has been not to interfere with the Social Credit experiment in any way. Both former Premier Bennett and the present head of the federal government have taken similar attitudes in regard to the matter.

PLENTY OF GRIT

For a girl to paddle her own canoe six hundred miles or thereabouts from Seattle to Prince Rupert with side trips enroute is a feat that few would care to undertake, even in these days of women's independence. The frail craft in which Miss Lowman made the trip is one that a man would not care to navigate across Queen Charlotte Sound or in the rough waters of the long reaches of the interior waterways. For a woman, it indicates a daring that is still unusual in the "weaker sex." Had she been drowned! in Douglas Channel, we should probably have said she was foolish, but she succeeded and she becomes a heroine. She will have an interesting story to tell when she returns to her studies at college.
