## Huge Moose Seen

cated Believed to Have Returned

SMITHERS, March 10:-A few days ago the attention of Jack McNeil, who lives at the foot of the Bulkley hill near town, was attracted when he noticed all his horses standing with their eacs pricked forward and looking out into the road near the bridge across the Bulkley River. Upon looking in the same direction Mr McNeil saw what he claims was the largest moose he ever saw in his life standing in the middle of the road surveying the scenery.

A few years ago a baby moose was taken onto the Oulton farm and raised there with the cattle ntil it got large enough to start out on its own when it meandered away and never returned It i possible that the large moose seen by Mr. McNeil may have been the partly domesticated animal which had returned to have a look at its early pastures. It was near he entrance to the Oulton farm when seen by Mr. McNeil.
