Any Fool Can Criticize

Dale Carnegie, in his book "How to Win Friends," says: "Any fool can criticize, condemn and complain-and most fools do."

Judging by the ordinary political campaign there are still a lot of fools in the country. As we have said before, it is easy to criticize but more difficult to do things. Mr. Aberhart was a little tin god in Alberta as long as he criticized only but the moment he attempted to do things he was damned by everybody and he has not yet really started to carry out his promises. Let him try and the critics will increase in number.

Now take this election. Mr. Pattullo is the man who has been doing things. He has put the province on its feet financially and he has been fighting the battles of the British Columbia people at Ottawa with the result that help has secured already between two and three million dollars, which would never have been secured had the leader not been an outstanding man. Yet he is being criticized from almost every political platform. Some Liberals even criticize that he is too fair.

People Have Commonsense

People do not criticize a man or a party which is down Chicago and out. It is because the Premier is a strong man that he Philadelphia is subject to severe criticism and because those who would st. Louis supplant him believe he is likely to win again. All opposition guns are turned on him because he is the outstanding figure.

A few foolish people are going around telling the people they will lose their votes if they do not vote for one of the! newer parties. This is not likely to have any effect because, fortunately, the people of Prince Rupert have sense enough to know what it means. We believe that Mr. Pattullo will win because we have faith in the sound com- final at Paris one year ago today monsense of the people here.

The Last Word

This is the last time we shall have an opportunity to say Boussus 6-4, 7-5, 6-2. Von Cramm anything in regard to the present election campaign. toppled the Britisher-lately When the newspapers come out tomorrow most of the turned pro-6-0, 2-6, 6-2, 2-6, 6-0. people will have voted. We suggest that the people protect their own interests by giving Mr. Pattullo such a major-ity as will show the people in the east that his own people fling at the races at Rangoon and are behind him. Let them show the pulp mill people that his double ticket, bought for we really want the pulp mill in Prince Rupert. They are \$1.80, returned him \$9,400, one watching the election outcome. Let us keep the wheels of of the largest race profits on industry moving and help forward the good times that we are bound to get if no untoward action is taken to stop

If the Premier does not make good now, there will be date: plenty of opportunity to defeat him at the next election. In the meantime, why throw a monkey wrench into the wheels of progress?

SIX MEN'S SAVINGS

are Necessary for

ONE MORTGAGE LOAN

CUPPOSING that six of your neighbors pooled their savings to provide you with a mortgage loan of \$3,000 on your home . . .

Then you would have a clear picture of how an average mortgage loan is made possible through Life Insurance savings.

To provide funds for a mortgage of \$3,000 on your home, a Life Insurance company requires the accumulated savings of six policyholders.

Today, the savings of policyholders have made possible an investment of \$382,000,000 in first mortgages on city, town and farm properties in Canada.

Policyholders whose funds are invested in such mortgage loans are not by any means all wealthy men. On the contrary, they are average thrifty individuals who are safeguarding their future by entrusting their savings to Life Insurance.
