THINK THIS OVER

THINK THIS OVER before you cast your ballot on Tuesday. If you elect a C. C. F. government in this province, credit will immediately be cut off, the flow of capital into the province will be stopped, within a year the people of this province will be on the verge of starvation. There will be no money for relief, social services or even to carry on the functions of government. Face these things squarely as they are as inevitable as the setting sun, for the government of this province has no power to create money. If you re-elect the Liberal government with its admitted inability to get along without borrowed money, its extravagance. its apparent incapability, the result will take a little longer but the ultimate result will be the same. The province will end in bankruptcy with the same cutting off of credit. The alternative to these two is to vote for the Conservative Party, a party pledged to economy, to cessation of excessive borrowing, to the good government of the province for the benefit of the people of the province. You don't want your children to starve. Vote for Evitt.
