DAILY EDITION.

WEDNESDAY, DEC. 13

HOW TO PUT SECOND AVENUE IN SHAPE.

Second avenue is the widest street in the downtown district. It has also the easiest grade. Theoretically it should be Prince Rupert's best street. Unfortunately, for over a year it has been put out of business. There is luck in odd numbers, and some of the aldermen have steadfastly done all they could to divert traffic from Second avenue to Third. Even a proposal to build a stairway from Second avenue to Rupert road was objected to. Although many thousands of dollars have been spent by the property holders of Second avenue to improve their street, it is not yet fit for traffic. This is a reproach that the Council should try and wipe out before the end of the year.

The present is an excellent time to put the road in order, while so much city equipment is already on the spot to assist in the moving of an old building owned by the Chairman of the Board of Public Works. Instructions have already been issued to the City Engineer to have the boulders broken up by the city staff, and the road placed in order to enable the building to be moved along. All it requires is for the Council and the citizens to join in a united movement to get the building moved and incidentally the road will be placed in order. Having now got the building shored up on timber belonging to the city, ready for being hauled along a wooden road bed made of city lumber, by a wire hawser belonging to the city, why should not the steam roller belonging to the city and the rock crusher belonging to the city be brought into use. This would not only help to get the boulders broken economically, and supply power to haul the building along, but it would also gratify the property owners of Second avenue, who at present are under a wrong conception as to the reason why the rock crusher and the steam roller are not allowed to visit there.

Having marshaled all the City Hall forces on the spot, it would be a simple matter to direct the moving of the building. With all hands below at the ropes and the Civic Commodore pacing the poop, sending down wireless signals to the cavalcade beneath, it would be possible to quickly remove the present obstruction from Second avenue and place the road bed in condition before the snow comes.

FIRST: "CATCH YOUR PRINTER"

***** DIRECTIONS FOR COOKING A HARE: *****
FIRST:—"CATCH YOUR HARE"

To produce good printing you must "first catch your good printer. . . You can't get good printing from a poor printer, even if he work with never so good an equipment. If he lacks the "knack," the trained taste, the single-minded fondness for his work which real printers have, he will do poor printing for you. If he has all of these, and in addition to them adequate modern equipment, your printing will have distinction, salesmanship, the lure of type-beauty.

As this office produces good printing you may infer the presence of a good printer—who is "catchable."

JOHN ARGIRACIS,
Fred E. Cowell, Agent,
Dated Oct. 31, 1911.
Pub. Dec. 9.

ISLAND NEWS ITEMS

Jottings From Growing Centres on the Queen Charlottes.

The pre-emptors of Massett Inlet held a meeting recently and discussed several matters of importance which will be laid before the Government.

A billiard room is the latest addition to the buildings on the townsite of the Natural Resources Company. A place of recreation has been greatly needed in Massett.

Mrs. Henry Moody's death at Skidegate was much regretted by all who knew the esteemed wife of the interpreter and hardy prospector of the Skidegate village. A large number of friends attended the funeral, which took place at the cemetery on the Skidegate Reserve.

A light fall of snow occurred on the island on November 9th, but it passed off in a short time. The cold wave which caused so much discomfort on the South Coast was scarcely felt on the island.

Board of Works Chairman.

Alderman Hilditch was an interested listener during the cross-examination of the City Engineer by Mr. W. E. Williams this morning.

Steamship Notes.

The G. T. P. steamer Prince Albert arrived overnight towing the North Bend with coal cargo.
