## Trouble As Japs Flaunt bhanghai

### Operations At Surf Point Mine Are Proceeding Satisfactorily; Eddye Pass Purchase Completed

Between seventy-five and eighty tons of ore daily is being mined at present from the Surf Point mine on Porcher Island by the Reward Mining Co. Ltd. of which about two-thirds is sorted out as waste, leaving the remainder to be milled. This yields about fifty tons of concentrate monthly, containing four hundred ounces of gold, which

constitutes a very satisfactory operation, says J. D. Galloway, man- SOCRED was in the city yesterday on his way back to Vancouver after spend-! ing the past month superintending operations on the property while the superintendent, Alex Smith, was on a vacation. Some forty to fortythree men are finding steady employment at the property, says Mr. Galloway, and operations are to be continued all winter. No further! trouble on account of water trouble is anticipated henceforth as a new reservoir has been put in which should ensure a steady supply unless there is a severe freeze-up.

Ore conditions at Surf Point, says Mr. Galloway, are very satisfactory. Work is being alternated between five or six different veins and there is a considerable tonnage of broken; ore on hand. Preparations are being made to sink on another level next spring.

The Reward Co., Mr. Galloway announced, has completed the purchase from F T. Patterson of the adjoining Eddye Pass mine which is at present closed but which it is, planned to re-open next spring.

Unity Candidate Wins Lethbridge By-Election Although Result Was Not One-Sided

LETHBRIDGE, December :

(Canadian Press)—Reversing the result in the general provincial election of 1935 when the Social Credit candidate, Hans E.
