Could Not Lift Arms Above Head

Owing to Painful Rheumatism

This woman suffered from rheumatism in her back, arms and legs. For two months, she endured this! painful condition, then, like many another sufferer, she decided to try Kruschen Salts. Read her letter:-

"About fifteen months ago I had rheumatism in my arms; back and legs. The pains in my arms and legs after getting warm in bed were almost unbearable. I was like that for two months, and could not reach above my head. I read so much about Kruschen Salts that I thought I would try them. I am so glad to say that for more than a year I have not had the slightest return of my rheumatism."-(Mrs.)

The pains and stiffness of rheumatism are frequently due to deposits of uric acid in the muscles and joints. Kruschen Salts assist in stimulating the internal organs to healthy, regular activity, and help them to get rid of this excess uric

Kincolith Woman's Auxiliary Elects

Mrs. Maggie Alexander is Elected President of Organization In Naas River Village

KINCOLITH, Feb. 16: - The Woman's Auxiliary of the Kincol Anglican Church, at its annual meeting with Rev. Oliver Thorne, the resident clergyman presiding, elected officers for the year as follows:

Baldwin Brings Abdication Message to Parliament

Hushed crowds lined the curbs in Westminster as the official car bearing Prime Minister Stanley Baldwin, left, made its way to the great structure that houses Great Britain's parliament with the message telling of the abdication of King Edward VIII. Within a few moments after this picture, which came to America by radio, was made, parliament and the world was informed of the denouement of a romance that has rocked the Empire.—Central Press Canadian Photo.

This was therefore His seal on the seventh day of the week

The evangelist pointed out that "sign" and "seal" were synony With King Tai taking a leading mous terms in the Bible, quoting part in the proceedings, there was in proof Romans 4: 11 and Ezekiei day, as a sign or seal between Him and His people forever.

But what is the mark of the Beast? The Beast brought to view in Revelations 13 was the one responsible for this mark. By comparing the prophetic language of Revelations 13 with the dragon of Revelations 12: 3 and the fourth peast of Daniel 7, it was clearly seen that it represented the Roman Catholic Church. A difference was made between the Roman Catholic people, many of whom were honest in heart, and heir system of worship. But o the Roman Catholic Church, what

could its mark be? It was first hown that the Church was res Divorce was not so common when ponsible for changing the Sab-25c Divorce was not so common when ponsible for changing the Sab bath from Saturday to Sunday in hing for a Quiet Life"—a play he following admission: "The 15c hat was the rage of London away atholic Church for over one back in 1776. and the Pope said "No. worship. on the first day of the week." and practically the whole world followed the Pope in spite of being 1so-called Protestants.

It was not a question of days but a question of obedience;-

HE MADE A TEN-YEAR TEST WITH ALL-BRAN

Say good-bye to the headaches. the low spirits, the sleeplessness that often follow common constipation. Just read this letter:

"In 1926, I started using ALL-BRAN. And now, after ten years, during which I have put Kellogg's ALL-BRAN to a long, hard test, I am writing you this letter. It is better to eat this food and be in condition, than to resort to laxatives." -Bernard Altman (address on

request). Kellogg's ALL-BRAN will help you too. Its "bulk" absorbs moisture within the body, forms a soft mass, gently cleanses the system. Tests prove it is safe and effective. ALL-BRAN is guaranteed. Try it a week. If not satisfactory, your money will be refunded by the

Kellogg Company. Just eat two tablespoonfuls daily. Either as a cereal, or in recipes. How much better to use this food than to take patent medicines. Buy ALL-BRAN at your grocer's. Made by Kellogg in London.

UNCLE SAM AND FLOODS

(Continued from page one)

spring floods can be cut appreciably if farmers try soil-conservation; if they strip crop (planting a row of corn, and then a row of grass for instance), if they terrace and if they plant their crops in rows that follow the lines of the hills. The forest service steps on the steeper slopes. Its men are planting trees where crops won grow. The trees take root and cling, underbrush and grass grows days of the disaster, and what the up, and the water's headlong rush eventual cost will be is not known is stopped.

all this work moves as slowly as a beetle going uphill, says Bennett, because it costs much money, demands much education of farmers and takes much preliminary survey work to determine where the money can best be spent.

That preliminary work has been; started by the department of agriculture, which is collecting all government data on the subject. But the work under last spring's floodcontrol bill still awaits the necessary grease—the money. The bill just "authorized" the expenditure. Some of the money is requested in the President's 1937-38 budget. He asks \$26,000,000 for flood control. Half a million of that is asked for the department of agriculture for survey work, and another \$500,000 is asked for a survey of Is Head of Army army engineers. The remaining \$25,000,000 is to be used for actual work and material.

> From a private business concern, which made a survey of last year's

flood destruction, the soil-conser. vation office learned the total da struction in 13 states was estimated at more than \$500,000,000.

This year, between Cincinnas and Cairo, floods have eclipsed all previous records. Last year say 350,000 homeless. This year there were 750;000 homeless when the floods were a week old. Last year the Red Cross spent \$7,052,964 up to September. This year it had 49 con. centration camps and 25 hospitals In the flood area during the early
