Expressions of International Friendship By Roosevelt-King Receive Widespread Approval

IVY LEA, Ontario, August 19: (CP)—President Franklin D. Roosevelt of the United States and Prime Minister William Lyon Mackenzie King yesterday afternoon officiated jointly at the dedication of the new international bridge through the Thousand Islands. Prime Minister King said that, in politics as well as in roadmaking, Canada and the United States had learned and practised the art of bridge-building. "The peoples of this continent," Premier King declared, "whether concerned with steel and stone or with the invisible realities of mind and spirit, have for the most part been bridge-builders worthy of the name. I think I speak the minds of both countries when I say not only are we determined to preserve the neighborly relation and the free ways of life which are our priceless heritage but we earnestly wish to see them become a part of the common heritage of mankind."

EAST ROUTE IS FAVORED

Member of United States Highway Commission Says This Will Be Governing Factor

SEATTLE, Aug. 19: (CP)—Representative Warren G. Magnuson and Donald Macdonald of Fairbanks, Alaska, members of the international highway commission, meeting in Magnuson's office here before leaving today for Victoria where they will meet Premier T. D. Pattullo, expressed the belief that there should be no delay in getting commissions representing both United States and Canada to function jointly in connection with the proposed Alaska highway. Macdonald said that snow conditions would affect the choice of the highway route. "The area east of the Coast Range is arid and snowfall not so heavy," he said. "That condition is true all up the western coast of North America. That should be the governing factor in routing the road. Whether the road is to be kept open all the year round will, of course, depend upon the amount of traffic."

OLD PRICE AGREED ON

Minister of Labor Makes Statement Today Regarding Salmon Price Arbitration

SETTLEMENT REACHED
VICTORIA, Aug. 19: (CP)—Hon. George Pearson, minister of labor, said today that an agreement had been reached between British Columbia cannery operators and salmon fishermen setting the price to be paid by the canners for this year's catch at the same rates as in 1937. Application to have wound up the arbitration board which has been negotiating with the canners and fishermen in an attempt to settle the price dispute would be sent to him by all parties to the dispute, the minister said.

VANCOUVER, Aug. 19: (CP)—"The future of the investigation is uncertain," Hon. George Pearson, minister of labor, said yesterday, following the resignation of Mr. Justice Denis Murphy, chairman, and R. R. Payne, canners' representative, as members of the board of arbitration on the 1938 salmon price question in Northern British Columbia.

"If two new members are not appointed it is just possible some other way may be found to settle the controversy but, until I have gone more thoroughly into the question, I cannot state just what will be done."

A. W. Neill, M.P. for Comox-Alberni, representing the fishermen, is the third member of the board.

Stop Legislators Reading Speeches

Because Other People Could Write Them, Mr. Speaker Tells Member

SYDNEY, N.S.W., Aug. 19 (CP)—Speaker R. W. D. Weaver of the New South Wales legislature has forbidden members to read their speeches.

Reason: Persons outside the House were willing to write members' speeches on any bill for 10 shillings each. When the minister of mines, R. S. Vincent, started to read from a prepared speech, the Speaker stopped him. "If the reading of speeches is to be allowed to continue," he commented, "members could ask someone outside—publicity agents as it were—to write their speeches without making research for themselves."

Officers, convinced that the blaze was the work of a fire bug, have examined remnants of chopped wood and automobiles, which were drenched with gasoline, for fingerprints or other clues.

VANCOUVER WHEAT

VANCOUVER, August 19 (Canadian Press)—Wheat was trading at 69½¢ on the Vancouver market yesterday.

The British Parliamentarian, who is studying the possibilities of mass migration to the British Columbia interior, declared that "the task of the Anglo-Saxon people and, more particularly the British, is to plan an attack upon the waste of our great unsettled lands and waste of our manpower through unemployment."

In the course of his tour of the Bulkley Valley, Sir Henry was greeted at Burns Lake by Olof Hanson, M.P. for Skeena.

Continuing the British baronet said there was no doubt in his mind "but that one can safely liken the vast stretches of fertile, unused lands visited in the watersheds of the Fraser, Peace and Skeena rivers as an area resembling the promised land of the Scriptures."

"We stood at Vanderhoof," said Sir Henry, "and viewed a panorama of land equal in area to one of the larger European states and we saw but three per cent being used for producing crops. Mr. Olof Hanson M.P. told me that in his own riding of Skeena there is a total of 124,800 square miles. Yet Mr. Hanson stated that in that vast area, embracing Queen Charlotte Islands, Terrace, Smithers, Burns Lake, Francois Lake and the Babine country, he had around 16,000 voters. In my own riding of Bournemouth we have 59,000 voters on the list."

Sir Henry and his party take the historic Hazelton trail today to Hazelton enroute to Prince Rupert where they will embark Saturday evening for Vancouver.
