

## The Letter Box

### DISGUSTED

Editor, Daily News:  
Sometimes your editorials are good. Sometimes they border on brilliancy but your remarks in Thursday's Daily News regarding "what is known as a health campaign" descend to the depths of puerility! Apparently, you believe that the public should be left to its own devices, to attempt by the trial-and-error methods of the Dark Ages to find its way out of a labyrinth of ignorance in which such a policy as you advocate keeps it. If you are consistent in your views, Mr. Editor, you will, doubtless, soon be writing a companion editorial to impress upon your readers the inherent dangers of placing warning signs at hairpin curves and other such hazardous spots on our highways for fear that our motorists become neuroti-

cally curve-conscious and start driving around curves that are not there!

Dear! Dear! Dear! Mr. Editor, what is the world coming to when its people cannot be informed about ways of protecting themselves from disease or death without being editorially accused of being hypochondriasis!

Yours in disgust,  
E. B. PUGSLEY, M. D.
