A UNIQUE INVESTIGATION.

Whatever dissatisfaction Mayor Manson has caused during his term of office among those of the citizens who prefer a business to a political administration, he has amply atoned by the investigation he conducted yesterday into the charges of laxity in the police and license administration. No similar investigation has ever been conducted anywhere else. As the Journal remarked of it this morning in flamboyant eulogy: "It was indeed a happy thought of the Mayor to take the method he did in testing the foundation for such reports." Mr. Manson should get the method copyrighted and patented. Under some pleasing title, such as "The Manson Whitewash Method," it should have a considerable sale at large prices among those license and police boards who may require an easy method of whitewash.

The beauty of the Manson Method is that all the parties who are on trial—the Police officers, the License Commissioners and the license holders—can get together and mutually perform the whitewashing act. Under the old system an independent judge and an independent jury had to be bothered with the tiresome business. The Manson Method saves independent judges and independent juries all this trouble.

Applied to the work of the ordinary courts of justice it would save the salaries of judges and court officers. It would probably be the means of abolishing the prison system also. Under the Manson Method all the parties in any way reflected upon could get together and swear to each other's innocence and everything would be lovely. Our fearsome police courts could then be turned into Mutual Admiration Leagues.

Mr. Manson in the days when he was seeking office promised a thorough shaking up and housecleaning in the police and license departments, and he has kept his promise.

How widespread has been the alarm felt throughout the city at the supposed loose way in which the law was being enforced is very well known. Indeed, among those who communicated to The News protesting against the alleged disorderly manner in which one of the licensed houses was said to be conducted was a woman in the tenderloin district. Curiously enough, the plea was based on grounds of public morality.

Now that the License Commissioners under the Manson Method have secured from each applicant before renewing his license a statement that he had no complaints to make and that no club was held up to him, the public will feel relieved—perhaps.

THREE DAY CURE FOR DRINK HABIT

Appeals to the Business and Professional Man, the Banker, and Man in all the Higher Walks of Life

BECAUSE OF THE TIME IT SAVES THEM

When a man's time is worth a great deal more to him than the cost of a drink habit cure he is not going to drag along for twenty-eight to forty-two days taking a treatment when he can get a cure in three days, without hypodermic injections, and be surrounded with every comfort of home.

A PERFECT CURE.

The Neal internal treatment cures the periodical, occasional or moderate drinker and the nervous man who has to drink to keep from becoming nervous. It takes away all inclination to drink, all desire and craving to drink, by neutralizing the poison of alcohol in the system and ridding the blood

of the poison by a rapid system of elimination, leaving the drinker in the condition that he was before tasting liquor, so far as the effect of alcohol may be concerned—all appetite for drink gone—and he a new man.

The treatment consists of the internal administration of a harmless remedy, tonic in its action, that removes the craving for liquor in a very few hours.

DRUG HABIT CURED.

At the Vancouver institute we also treat drug addictions with uniform success. Call, write or phone for booklet, giving full information.
